

TEAM DECC presents: Susan Judah from the Controller's Office – Dept. of Finance
DECC Nonprofit: Colorado SIDS Program/Angel Eyes

In 1998, my family was unfortunate enough to need the assistance of the Colorado SIDS Program/Angel Eyes. Our 2nd son passed away at 10 weeks of age. He was a sweet boy who didn't have a chance at life. Through the support of Angel Eyes, my family was able to receive counseling, sharing, and healing. It was through their support that gave us the bravery to have another child, our daughter. While it has been a number of years since his death, he is still part of our family. Even though our daughter didn't a chance to meet him, she still counts him as her brother. My husband and I have volunteered to speak to other members of the program as well as participate in a number of program events – walk-a-thons, lobster/steak sales, etc. Ever since I started employment with CCD I have contributed to Angel Eyes through payroll deduction with DECC.

"Through the support of Angel Eyes, my family was able to receive counseling, sharing, and healing." – Susan Judah
