Scope for ISO 14001 Certification

As stated in the EMS Manual (CCD-102), the scope of the EMS for CCD covers all properties and operations of CCD, excluding Denver International Airport (“DIA”), which operates under its own EMS.

The scope of CCD’s ISO 14001 Certification is described in this document. The collection of ISO 14001 certified subunits will expand every year and will be determined by the EMS Program Manager.

2008 ISO 14001 certification participants include the following subunits:

- Department of Environmental Health
- Department of Public Works
- Department of General Services
- Theaters and Arenas
- Denver Zoo Foundation
- Office of the Mayor

By 2011, all City Departments, Offices, Agencies and Cultural Institutions (e.g., Library, Zoo, Art Museum, etc.) will have an operational EMS and will be certified to the ISO 14001 International EMS standard.

Unless otherwise specified at the beginning of the document, printed copies of this document are UNCONTROLLED.
Always refer to the online EMS document library prior to use to ensure you are using the most current version.
