Emergency Preparedness Requirements

Title:	Emergency Preparedness Requirements
Document Identification Number:	CCD-203.04
Version:	3.0
Revision Date:	May 2, 2008
Document Owner:	EMS Program Manager (Paul Schmiechen)
Controlled Copy Location:	Not applicable.

Unless otherwise specified at the beginning of the document, printed copies of this document are UNCONTROLLED.
Always refer to the online EMS document library prior to use to ensure you are using the most current version.

1. Overview

This Emergency Preparedness Registry identifies the legal and other requirements (such as policies and plans) that the City and County of Denver (CCD) is subject to via federal, state and local initiatives. It is intended to outline these requirements from their source (e.g., the United States Code) to specific documents and actions that must take place in order to meet the requirements (such as permits, compliance reporting, and record keeping).

Emergency preparedness and response have environmental aspects, as identified in the Environmental Aspects and Impacts Assessment section.

To address the legal and other requirements created by these aspects, CCD operates the following program:

1. Emergency Preparedness Program

Additionally, CCD has created and published an Environmental Guideline (EG) to assist in controlling the aspects referenced above to minimize impacts of emergency operations. A list of EGs can be found in the Environmental Guideline Process and Catalog.

Unless otherwise specified at the beginning of the document, printed copies of this document are UNCONTROLLED. Always refer to the online EMS document library prior to use to ensure you are using the most current version.

Designation of the Denver UASI
