DEPARTMENT OF PUBLIC WORKS | ENGINEERING DIVISION

Storm Drainage and Sanitary Sewer Construction Detail and Technical Specifications

2.0 Site Preparation

2.0.1 General

The site of all trenches shall be cleared of all vegetation, stumps, roots, sod, and debris prior to excavating. Fences, walls, curbs, sidewalks, gutters, crosspans, poles, or any other structures stipulated on the drawings to be removed, or otherwise authorized by the Project Construction Engineer to be removed, shall be removed and later replaced in a manner acceptable to the City and equivalent to its original undisturbed condition. Except as otherwise shown on the Drawings or otherwise specified herein all unsalvageable materials shall be removed or hauled from the site to an area designated by the Project Construction Engineer and disposed of by the Contractor at his expense. Unless otherwise specified in the Contract Documents or elsewhere in these Detail and Technical Specifications, all salvageable materials and items shall become the property of the City. If, in the event it is specified that certain salvageable materials are to become property of the Contractor, no payment will be made for the removal of those items or materials.

2.0.2 Stockpiling of Excavated Materials, Pipe, Etc.

In accordance with and in addition to the requirements set forth in GC's 801-807 of the General Contract Conditions. No excavated materials, pipe, equipment, or any other items shall be stockpiled or stored on private property without the express written approval of the

owner of the property. Duplicated copies of any written approval or authorization given to the Contractor shall be filed with the Project Construction Engineer and shall be so worded as to hold harmless the City of any responsibility whatsoever relative to the stockpiling and storage of material and equipment. All costs incurred shall be borne by the Contractor.

2.0.3 Construction Easements

All additional temporary construction easements, except for those public rights-of-way and permanent or temporary easements obtained by the City, that the Contractor feels are necessary to perform the required work shall be obtained by the Contractor at his sole expense. If these easements are granted to the Contractor, duplicate copies of the written authorization shall be filed with the Project Construction Engineer and shall be so worded as to hold harmless the City of any responsibility whatsoever relative to any temporary construction easement obtained by the Contractor. All costs incurred shall be borne by the Contractor.
