

Sloan's Lake Park MASTER PLAN

CITY AND COUNTY OF DENVER DENVER PARKS AND RECREATION
June 2012

Sloan's Lake Park is a unique and special place in our city: a ribbon of green surrounding a great sheet of water that opens the park to the sky, with the office towers of downtown Denver rising up on the east and the snow-capped Rocky Mountains spread across the western horizon. The park is a haven for both people and wildlife, an inner city retreat where one can enjoy the expansive views, water, openness and natural beauty of the place.

LEGEND
