# Business Energy Loans

Low-cost financing for businesses of the City & County of Denver.

40+ approved measures with interest rates starting at 3.75%\*.

## Easy, online pre-approval

Business energy loans can be used for a variety of upgrades, including:

- **Lighting Upgrades**
- **Energy Audit ASHRAE Level 2 or 3**
- **Energy Management**
- **Heating, Ventilation & Air Conditioning (HVAC)**
- **Office Equipment**
- **Laundry Equipment**
- **Motors and Drives**
- **Refrigeration, Food Service & Grocery**
- **Walls and Roofing**
- **Water Heaters**
- **Renewables \*\***
- **And more. Contact your sustainability advisor for a full list of eligible projects.**

Best of all, business energy loans are available for a variety of terms, from 36 months to ten years, extending well beyond short term rebates and making almost any upgrade affordable.

\* APR = Annual Percentage Rate. Actual APR will be determined when you apply and will be based on your application and credit information. Visit [elevationscu.com/rates](http://elevationscu.com/rates) for additional rate information. Businesses can apply for a loan between \$1,000 and \$150,00. Business energy loans may exceed \$150,000 with prior review. Business energy loans over \$40,000 may be variable rate and are underwritten on a case by case basis. A \$25 processing fee will be applied and all borrowers will be required to become members of Elevations Credit Union.

\*\* In order to qualify for Solar Photovoltaic and other renewable energy sources under this loan, borrowers must achieve 15% energy efficiency improvement to the property through Certifiably Green Denver. Speak with your advisor to see if you need to meet this requirement.

# How It Works

1. Before you begin work with a contractor, or need to locate financing, contact a sustainability advisor to see if your project(s) qualifies for financing.

[Denvergov.org/CGD](http://Denvergov.org/CGD) | 720-865-5457

2. Your advisor will help you get pre-approved and then apply for your loan. *Loans are administered through Elevations Credit Union.*

3. Contractor installs your approved energy upgrades.

4. Close on your loan with Elevations Credit Union and enjoy your energy efficient biz!

## Other Program Benefits:

- No-Cost Sustainability Advising *(even if you don't need financing)*
- Potential to become a certified green business
