

TEAM DECC: CARING. GIVING. EVERYBODY WINNING.

April Hansen · Finance

“I support **My Fairy Dawg Mother** because they are a local, grassroots-driven animal rescue group that focuses on larger breed dogs, primarily hound breeds. They will accept any dog in need and are known for accepting dogs that are frail, older and in need of medical or hospice care. I have fostered dogs for them in the past and have adopted my beloved dog Trouble from them. I look forward to supporting their efforts through the DECC. I have participated in the DECC through donations since joining the city three years ago and hope to further contribute to my community through the DECC's outreach efforts.”

More about My Fairy Dawg Mother

My Fairy Dawg Mother was founded in an effort to save abused and neglected dogs from across the United States and pair them with loving and stable Colorado families. They are a Colorado-based nonprofit dog rescue that advocates finding the perfect long-term home for each dog that is brought under the rescue umbrella. The dog rescue was established in early 2011 and since then boasts a 100% success rate with the placement of over 500 dogs. The successful placement of each rescue dog lies in a formulated plan that consists of the utilization of foster homes, behavioral modification training, complete vetting, an adoption agreement and a trial period offered to every adoption candidate with their potential canine companion.
