

Gay Johnston · Aviation

“In September of 2005 I lost my grandson to an ATRT brain tumor, cancer. I am hoping that **St. Jude Children’s Research Hospital** finds a cure for all children’s cancers soon. We know first hand that losing a child is the hardest thing one thing one will ever have to endure. I truly believe that with donations and peoples time a cure can be found.”

More about St. Jude Children’s Research Hospital

St. Jude is leading the way the world understands, treats and defeats childhood cancer and other life-threatening diseases. The organization’s mission is to advance cures, and means of prevention, for pediatric catastrophic diseases through research and treatment. Consistent with the vision of founder Danny Thomas, no child is denied treatment based on race, religion or a family's ability to pay.
