This rule shall be read in conjunction with the following Revised Municipal Code and Fiscal Accountability Rules (FARs) to ensure compliance and understanding:

• Revised Municipal Code Section 20-52

• Federal Acquisition Regulation Contracts with Commercial Organizations, Subpart 31.2 – Contract Cost Principles.
RULE 9.2 – GRANT MANAGEMENT, CONTINUED

Definitions

**Contractor** – A dealer, distributor, merchant, or other seller providing goods or services that are required for the conduct of a Federal program. These goods may be for an organization’s own use or for the use of the beneficiaries of the Federal program. A contractor would not be subject to audit requirements of the Federal program. For assistance in identifying the types of characteristics to consider when determining whether an entity is a subrecipient or contractor, refer to the [Subrecipient vs. Contractor Guidance Worksheet](#).

**Drawdown** – The process of requesting and receiving payment against a grantor’s line of credit for expenditures and/or services performed in support of one or more grant activities.

**DUNS Number** – A unique 9-digit identification number required to apply for U.S. federal government contracts or grants.

**Grant** – A legal instrument that documents the financial assistance in the form of money or property to an eligible recipient.

**Grantor** – The external entity awarding a grant or cooperative agreement.

**Indirect Costs** - Represents the expenses of doing business that are not readily identified with a particular grant, contract, project function, or activity, but are necessary for the general operation of the organization and the conduct of activities it performs.

**Operational Plan** – A mechanism for scheduling the use of time and resources over the life of the grant.

**Program Income** – Money that is earned or received by a recipient or subrecipient from the activities supported by award funds or from products resulting from award activities.

**Supplanting** – The use of federal funds which results in the decrease of local funds spent on a particular activity, which, in the absence of the federal funds, would have been available to conduct the activity. Federal grant funds may supplement (add to) but may not supplant (replace) existing local City funds appropriated for the same purpose.
