

PROJECT PURPOSE

Project purpose is to create a South Broadway Corridor that provides safe and efficient multi-modal mobility which:

• Accommodates the transportation needs of the area neighborhoods, existing businesses, planned developments and the South Broadway Station area.

• Promotes development and use of transit-oriented, civic spaces.

SUSTAINABILITY

Greenprint Denver sustainability areas:

- Energy
- Air and Emissions
- Water
- Land
- Transportation
- Waste
- Community
- Art

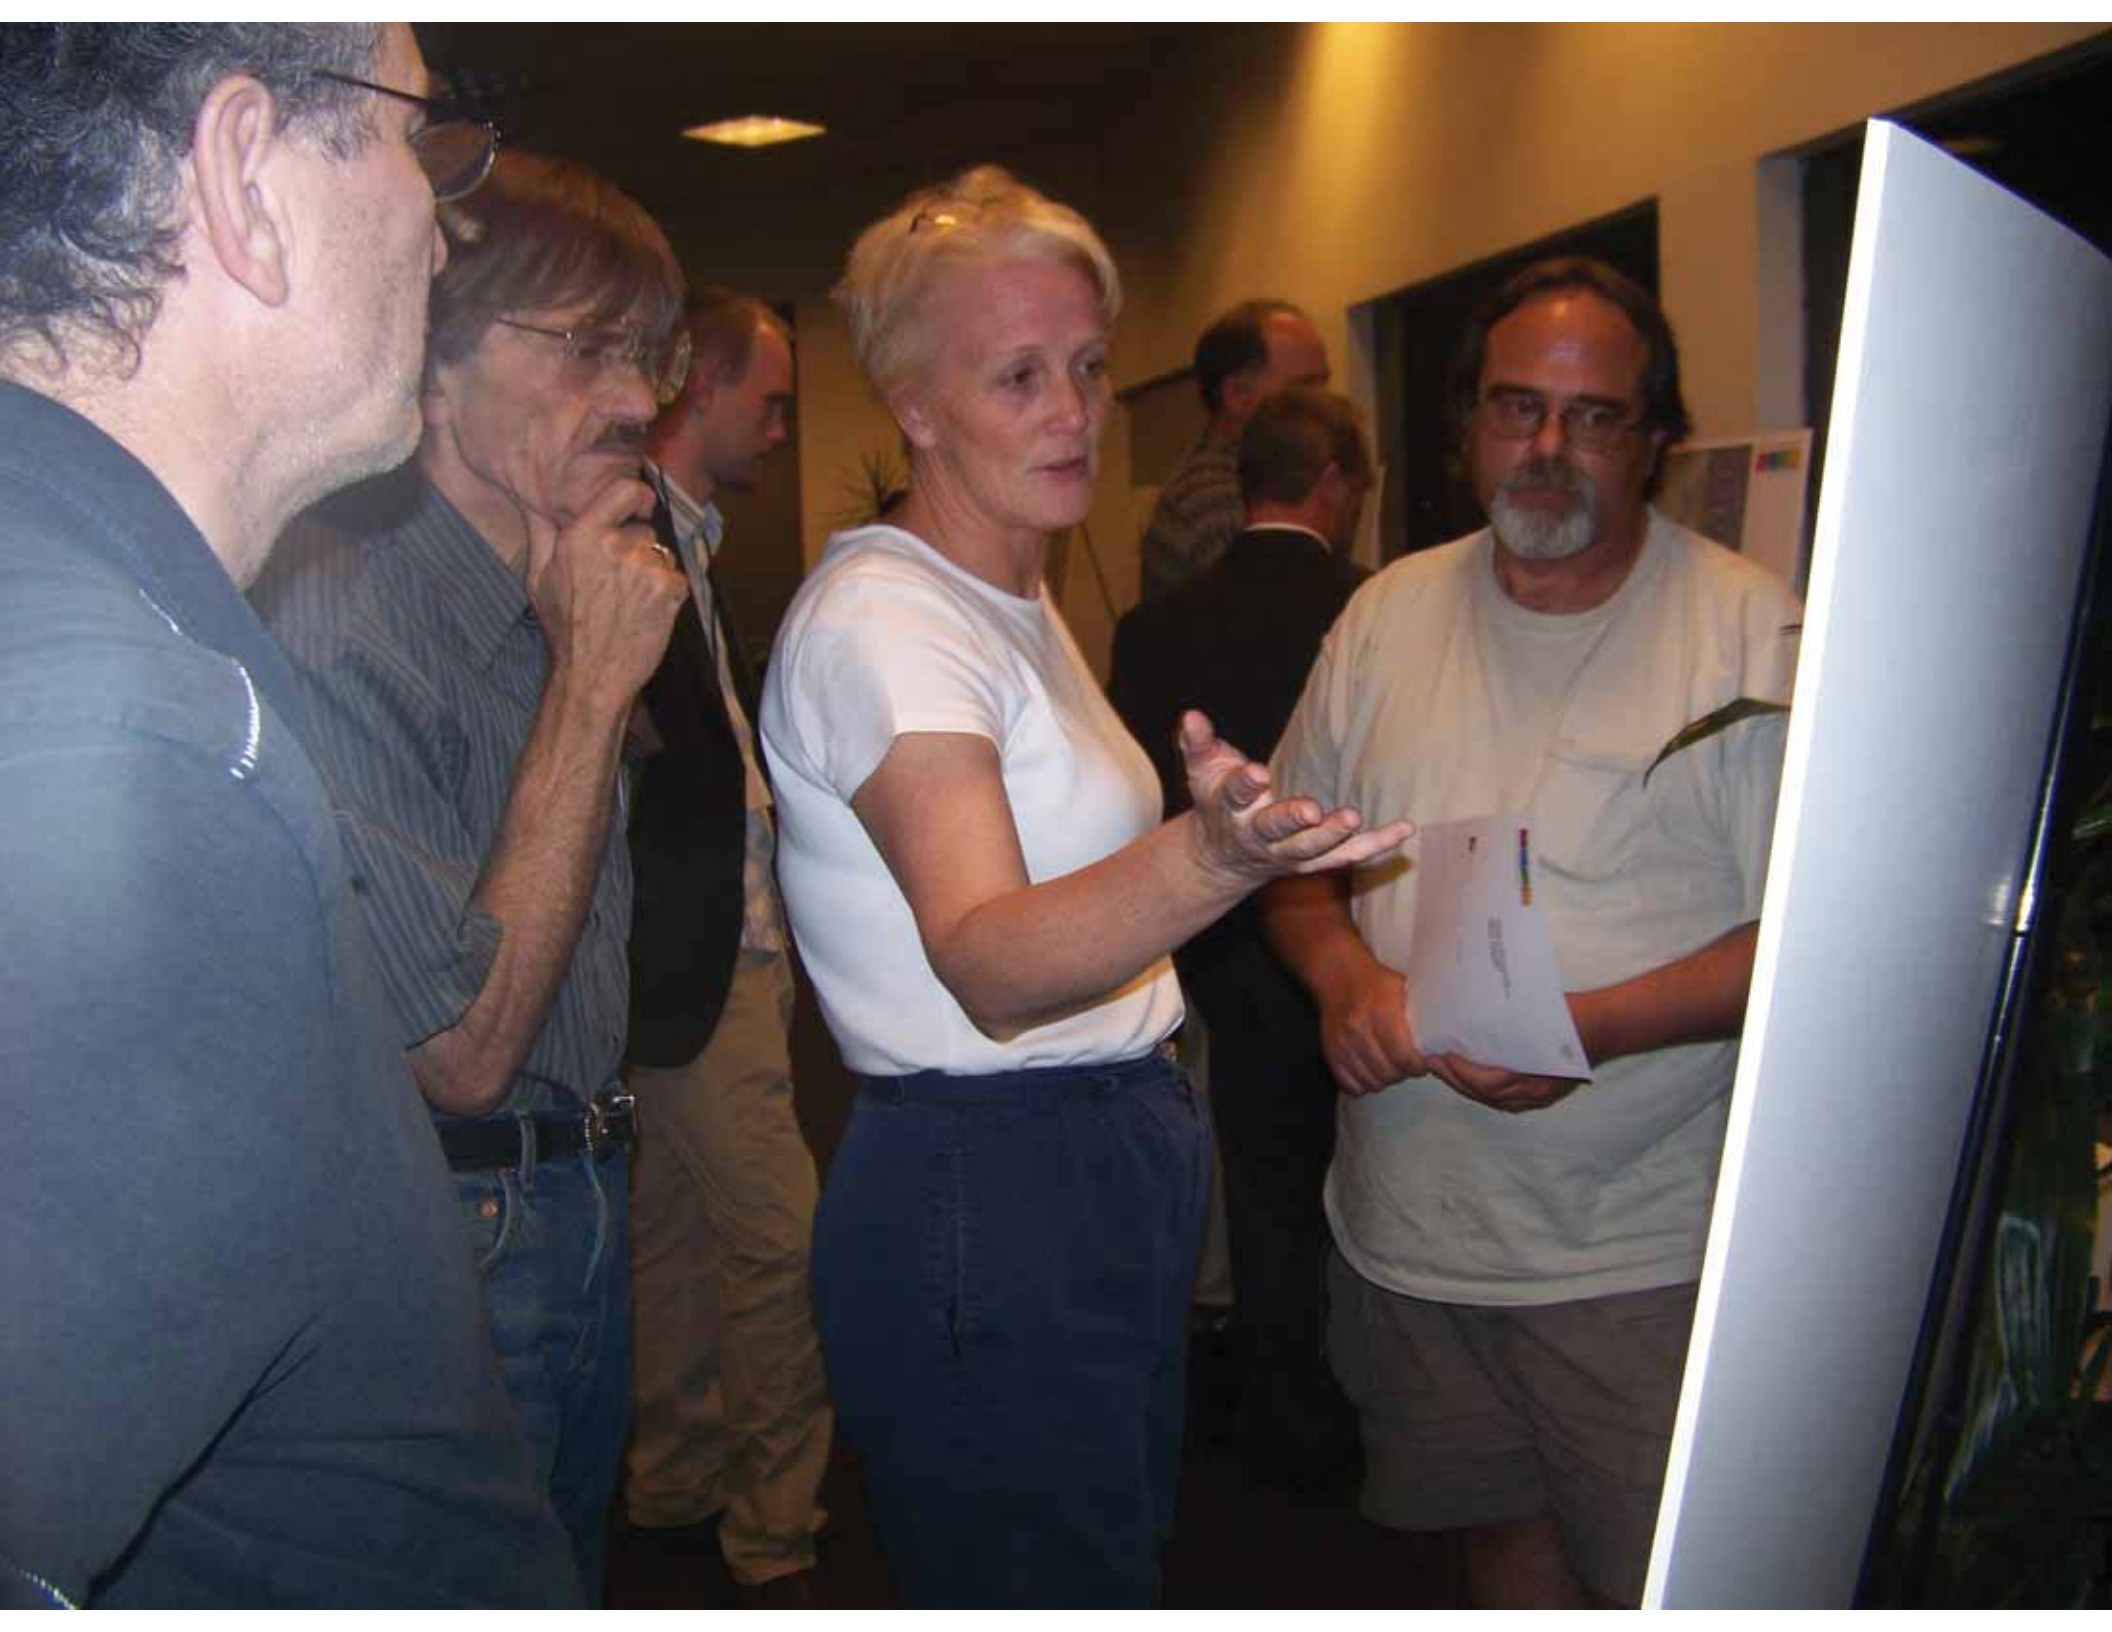

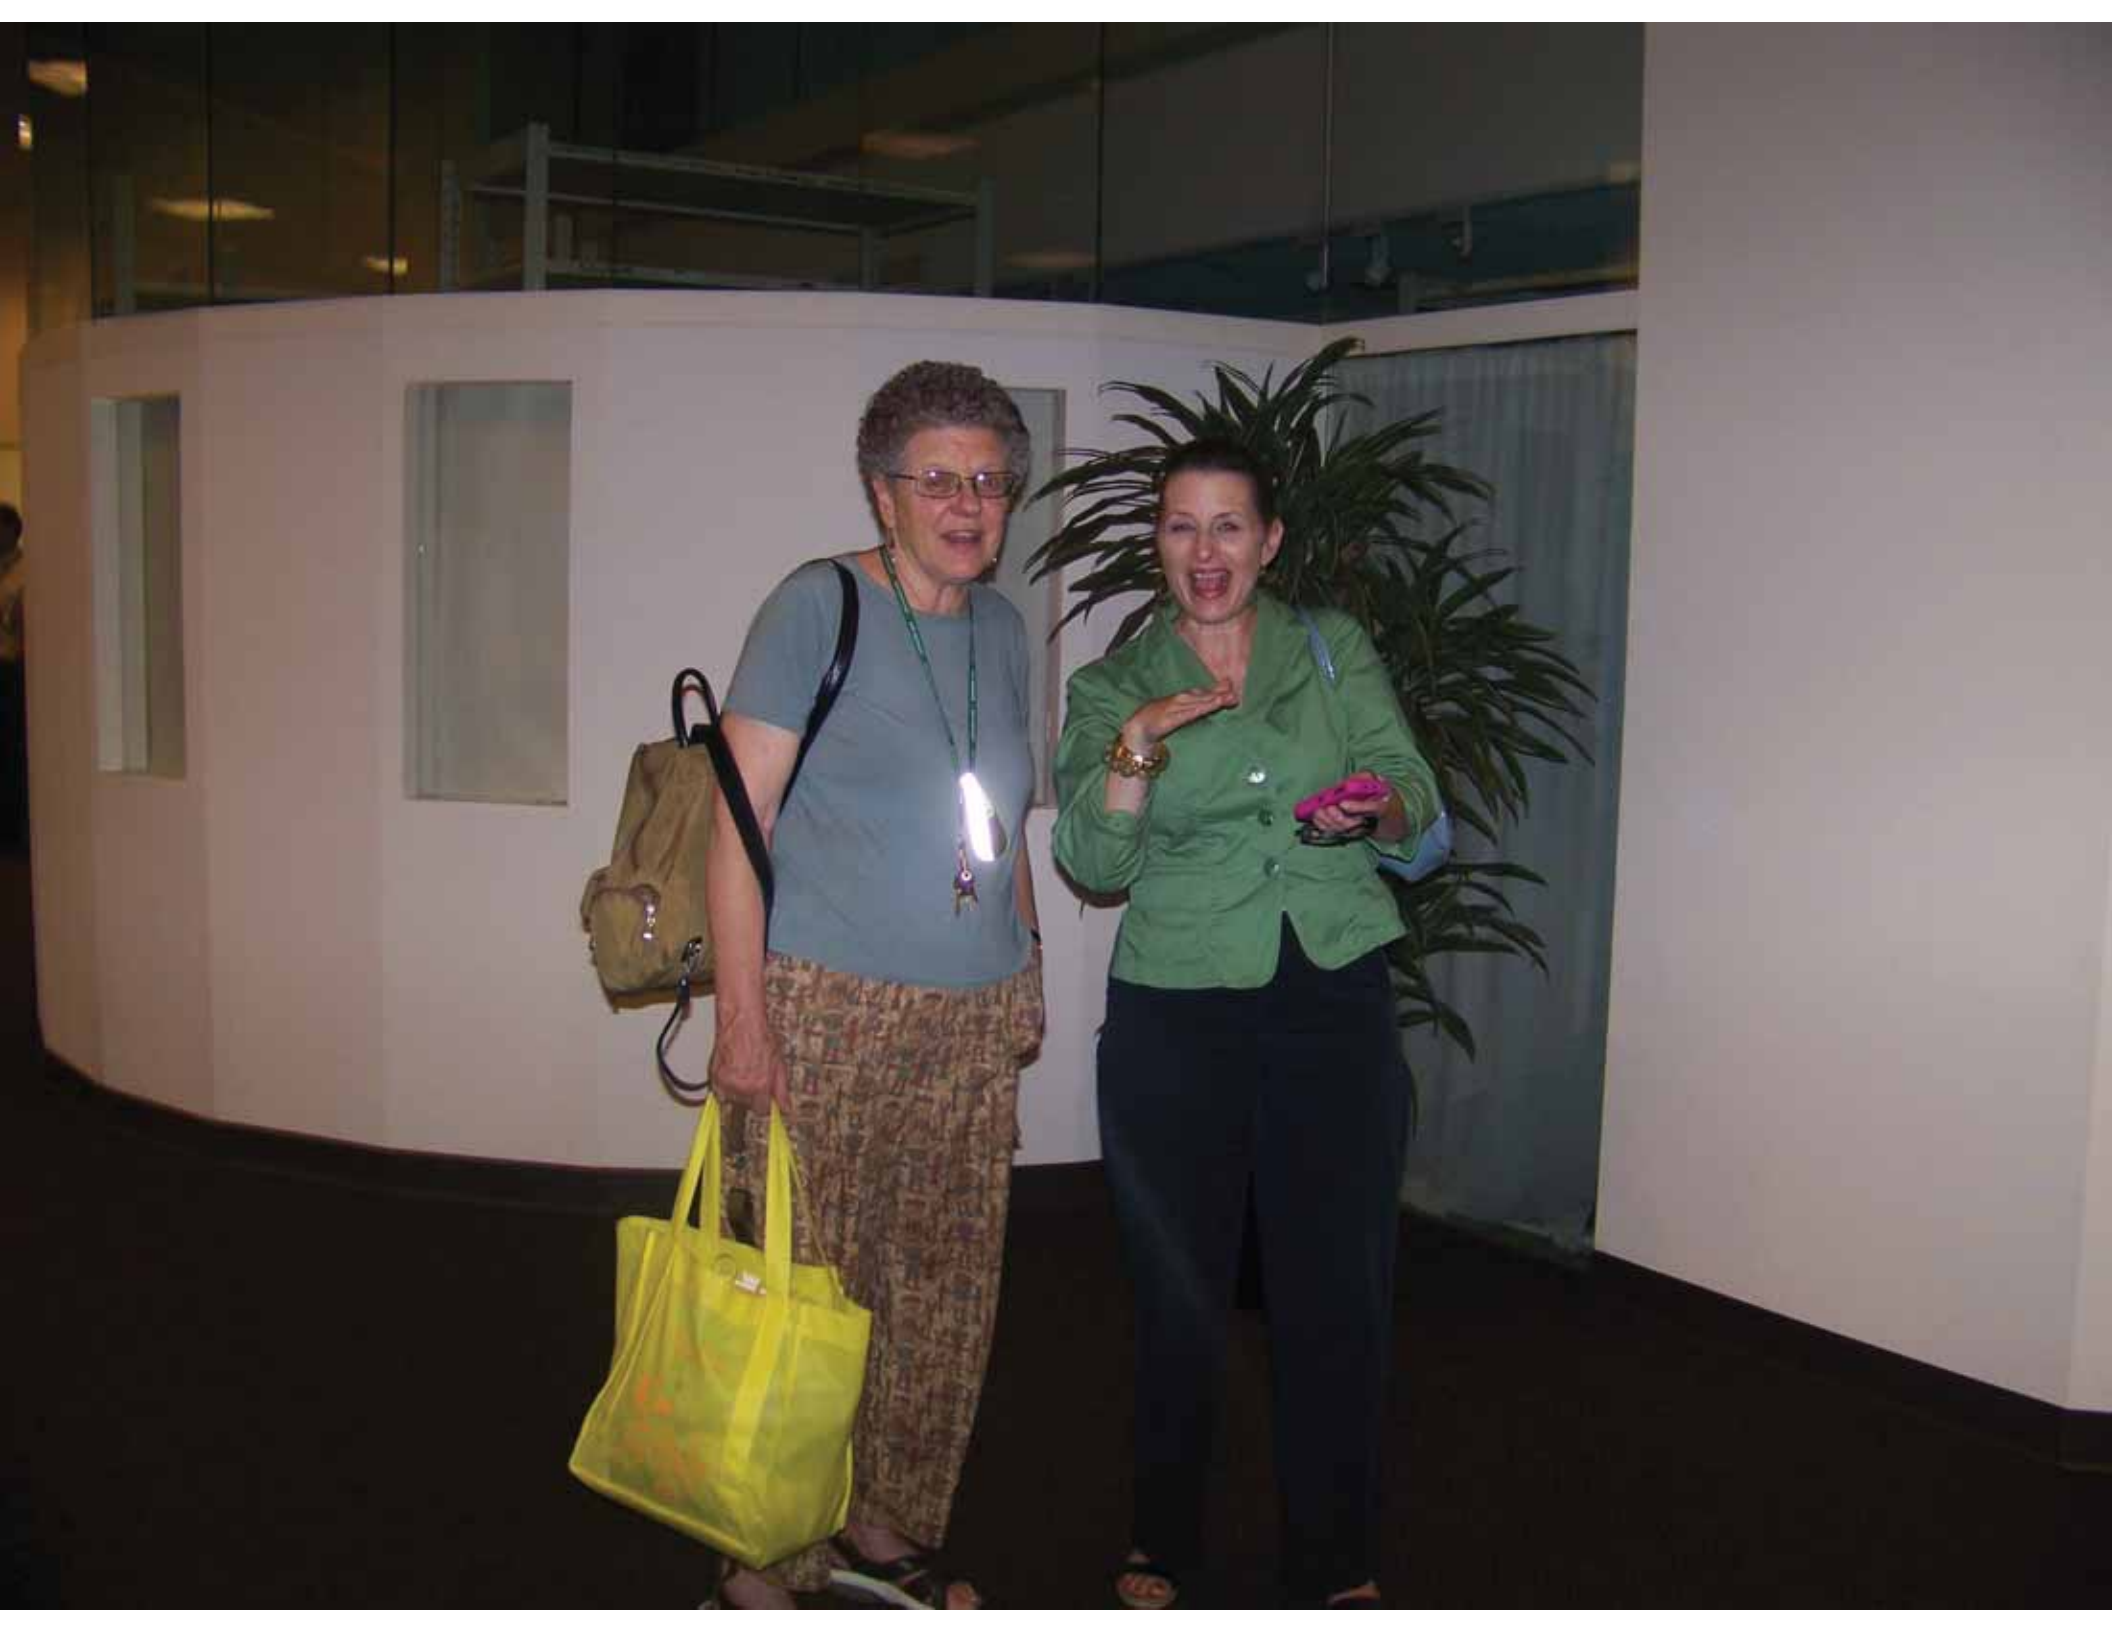

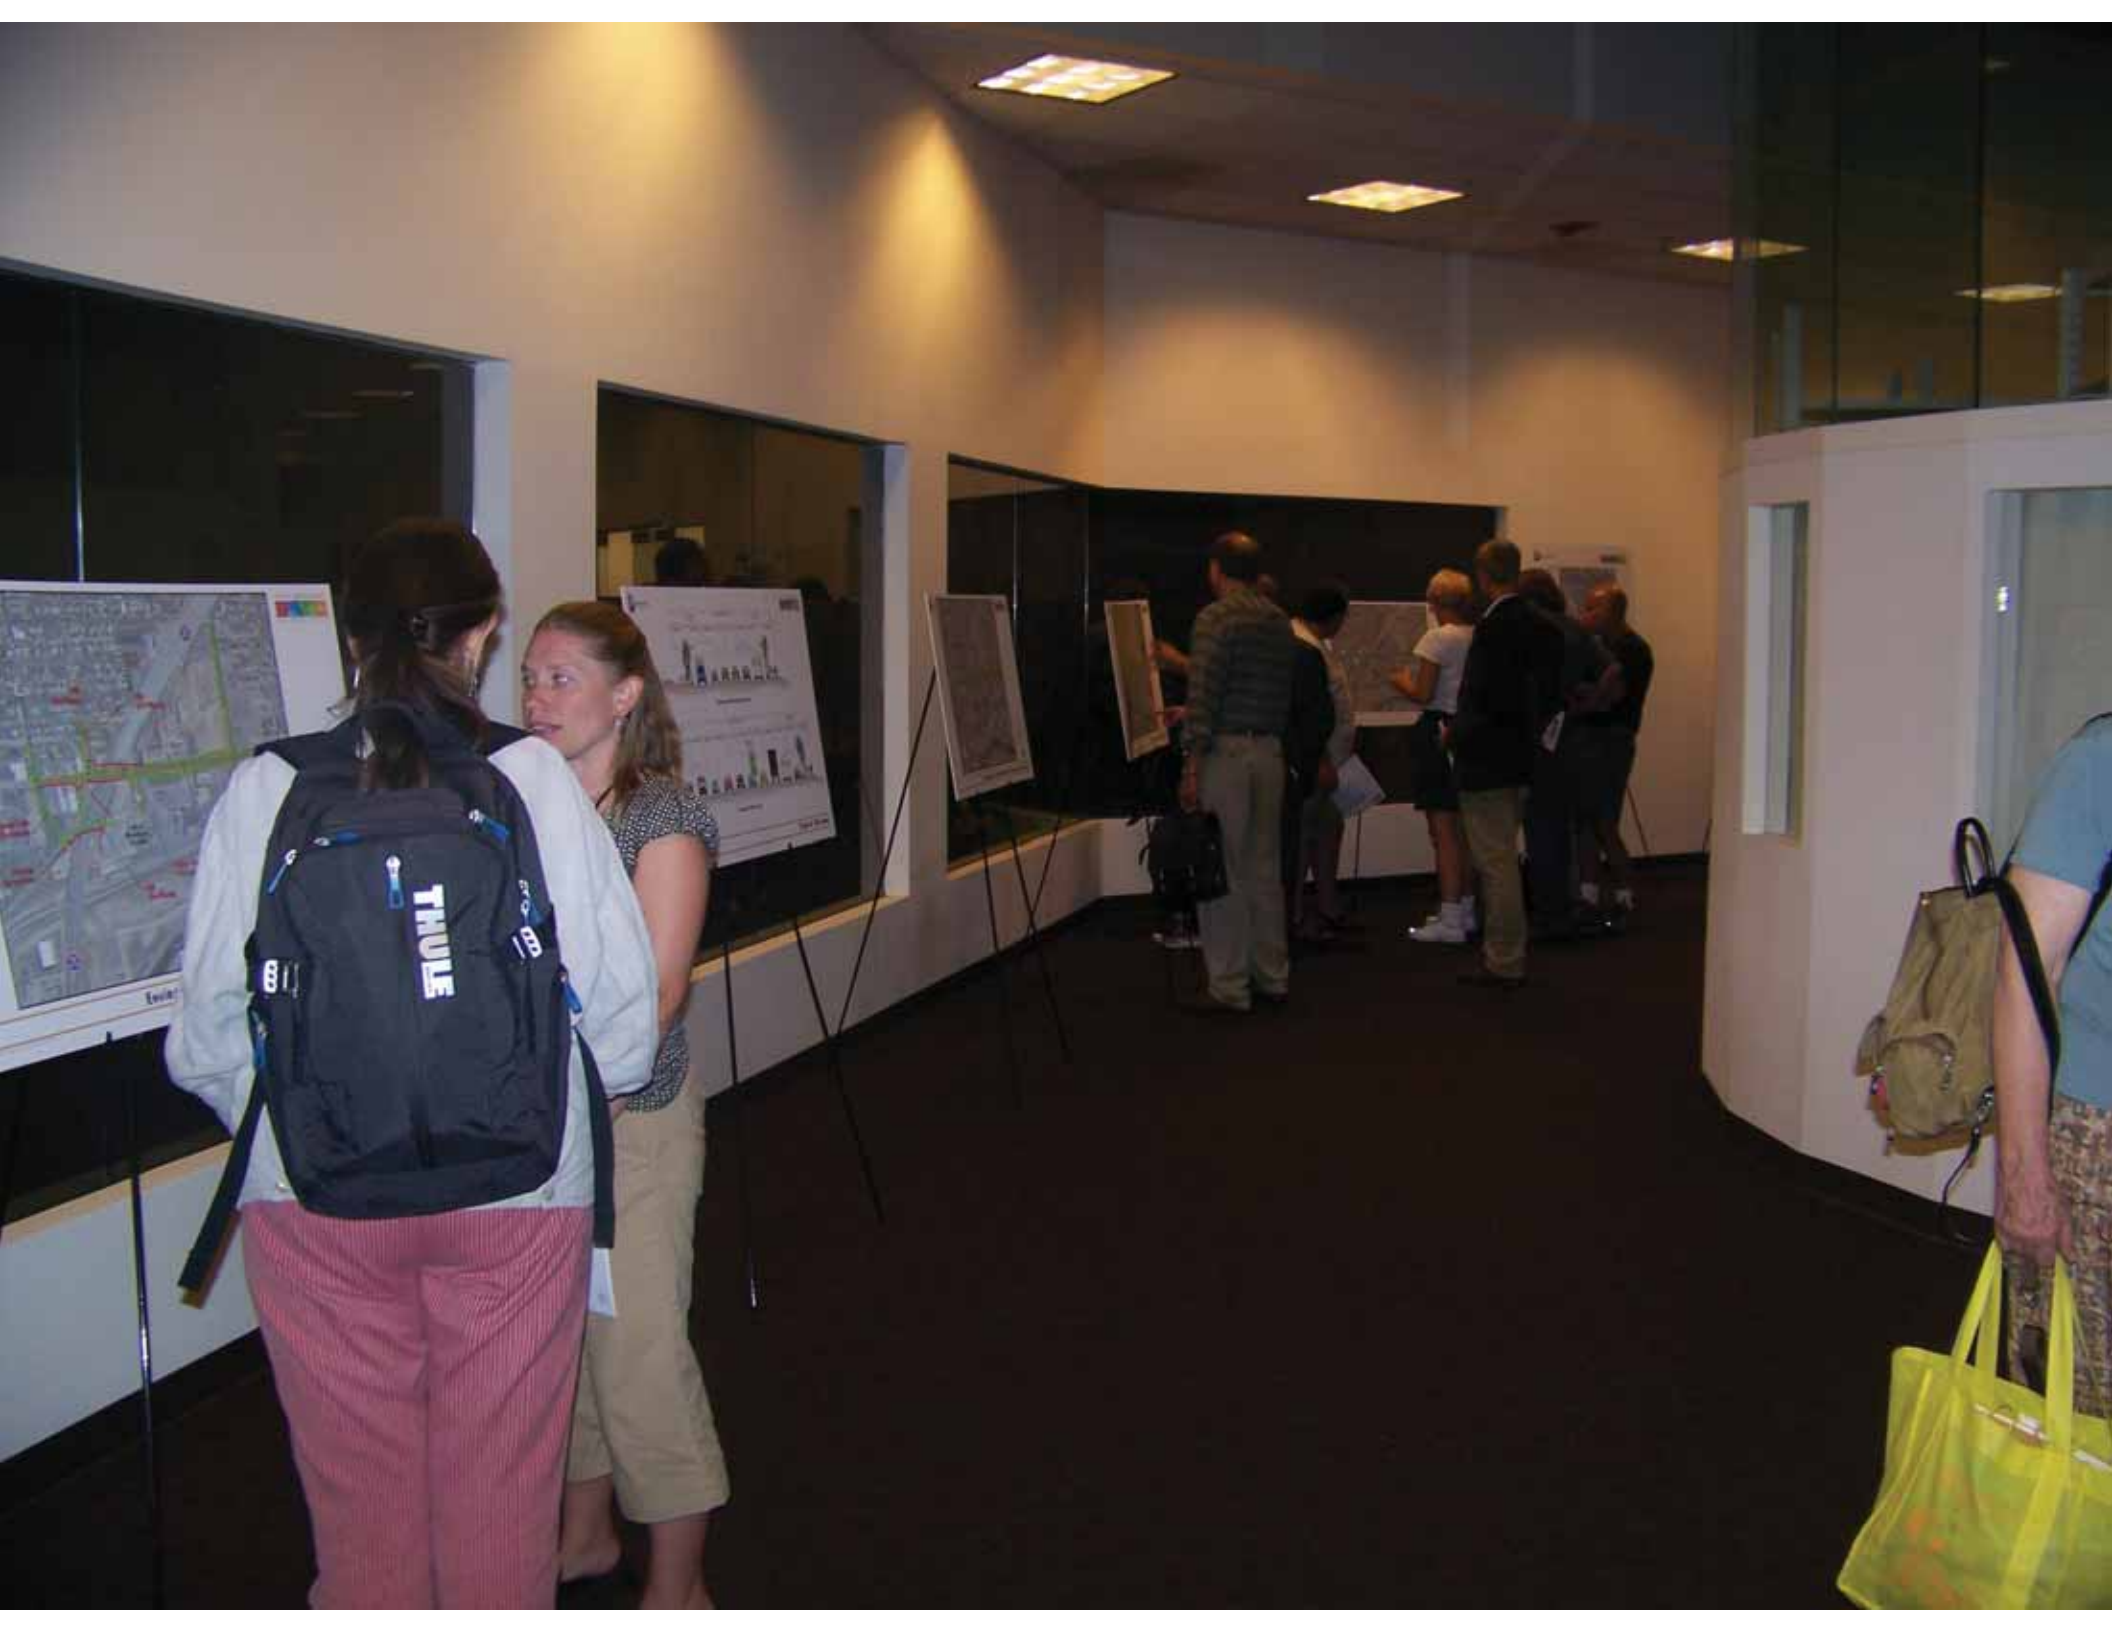

Energy
The energy sector is a key driver of economic growth and job creation. It is essential to ensure that the energy system is secure, resilient and sustainable. This involves a mix of fossil fuels, nuclear power and renewable energy sources.
