

City and County Building Deferred Maintenance

1.01.01.01-21
1437 Bannock St.
Denver, CO 80202
District 10

Project Overview

Project Scope

Deferred maintenance work at Denver's City and County Building comprised various projects aimed at rehabilitating and enhancing the historic structure. Specific maintenance activities included replacement of concrete sidewalks, reconstruction of the main entrance stairs, restoration of exterior masonry, refurbishment of existing windows and doors, minor renovations of interior spaces, associated modifications to existing building systems, new window treatments, and updates to interior finishes, fixtures and furnishings.
