

Boettcher Concert Hall Deferred Maintenance

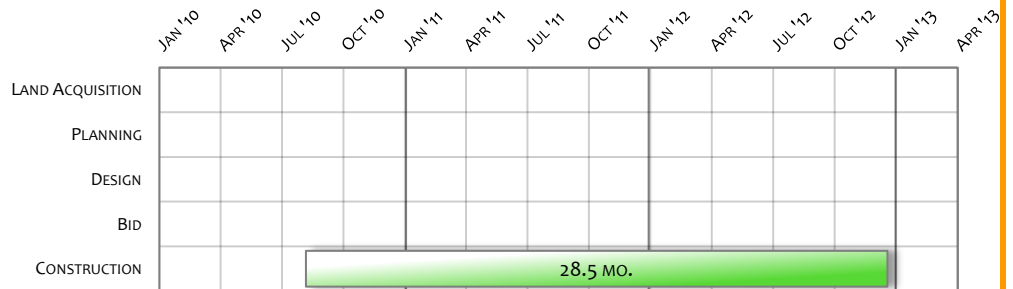

1.02.02.01-04
950 13th St.
Denver, CO 80204
District 9

Project Overview

Project Scope

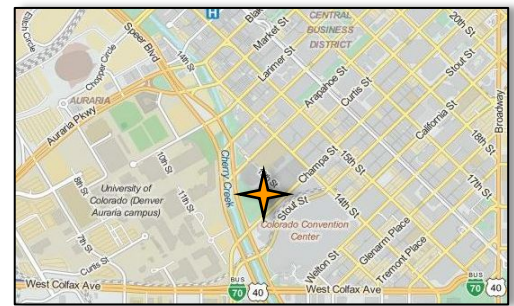

Deferred maintenance at Boettcher Concert Hall was comprised of the following activities: removal and replacement of the facility's existing 35,000 square foot built-up roof; interior patch and paint repairs to various portions of the hall's distressed plaster ceiling; professional design services associated with replacement of a five-story hydraulic elevator; and improvements to audiovisual, rigging and support systems in proximity to the main stage. These various deferred maintenance activities were completed between Q3 2010 and Q1 2014.
