

Parks System New Restrooms

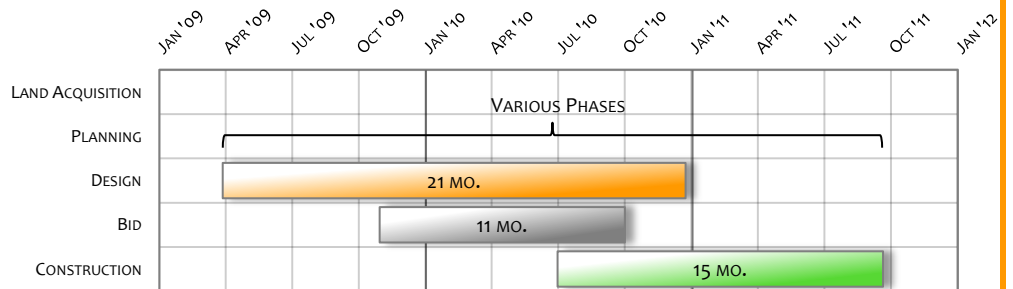

1.04.11.01-09
 Various Locations
 Districts 1, 4, 6, 7 & 9

Project Overview

Project Scope

The Better Denver Bond Program funded the construction of new restroom facilities at eight locations within the City's parks system: Berkeley Park, Sloan's Lake Park North, City Park, Bible Park South, Garland Park, Rosamond Park, Ruby Hill Park, and Vanderbilt Park. Six of these structures are based upon a new standard design that incorporates separate men's and women's restroom facilities as well as an outdoor drinking fountain and janitorial space, whereas the City Park structure builds upon this standard to incorporate additional sustainable and renewable energy features. The Ruby Hill Park restroom is one component within a newly constructed pavilion complex and includes a private family restroom as well as dedicated men's and women's facilities.

BETTER DENVER BOND PROGRAM
 PROJECT COST:
\$2,959,135
