

West Bar Val Wood Playground Improvements

1.04.14.01
2001 W. Cedar Ave.
Denver, CO 80229
District 7

Project Overview

Project Scope

Improvements to West Bar Val Wood playground consisted of general site improvements including a new accessible concrete walkway into the playground, a small plaza for gathering, picnic tables, bike racks, a bench, and a trash receptacle. The playground includes two play pits, one for intermediate play and one for tot play. The intermediate play pit features a large play structure, spinners, as well as belt swings and a tire swing. The tot play pit includes a tot structure, swings, spring rider, and a spinner. The playground also features a trike path with a play gas station feature and a sand play area with an ADA-accessible elevated sand table. Each play pit includes ADA-accessible surfacing and ramps. New planting beds were also included in the playground's re-design, as were irrigation system enhancements aimed at more efficiently irrigating new sod, trees and ornamental shrubs/perennials.
