

# Elmendorf Park Playground Improvements

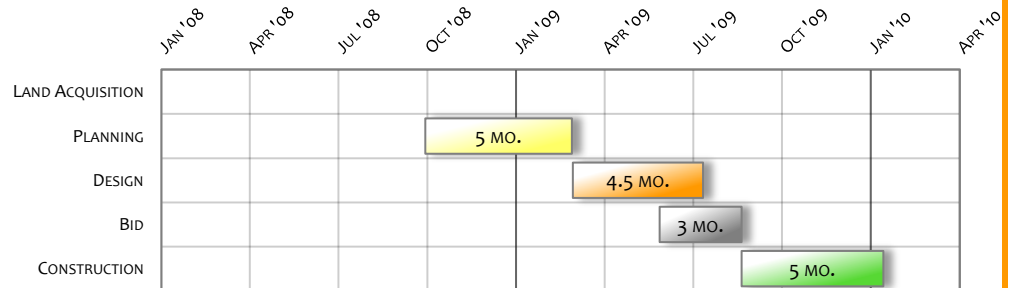

1.04.14.06  
12701 E. Elmendorf Pl.  
Denver, CO 80239  
District 11

## Project Overview

### Project Scope

Improvements to Elmendorf Park consisted of general site improvements including new concrete pathways, a plaza area, modernized playground equipment, an improved basketball court, and enhanced site amenities and furnishings. The new playground includes play spaces for various ages, and the plaza area includes new picnic tables and trash receptacles. Additional planting beds were included in the playground area's re-design, as were improvements to the existing irrigation system aimed at efficiently irrigating new sod, trees and ornamental shrubs/perennials. In designing the new playground, project staff sought the input of neighbors and the staff of the nearby Amesse Elementary School. The theme of "education" was woven into the design of the new playground, with elements such as the alphabet, vowels and geometric shapes visible in the park's various features.
