

# Colfax Avenue (Grant St to Columbine St) Improvements

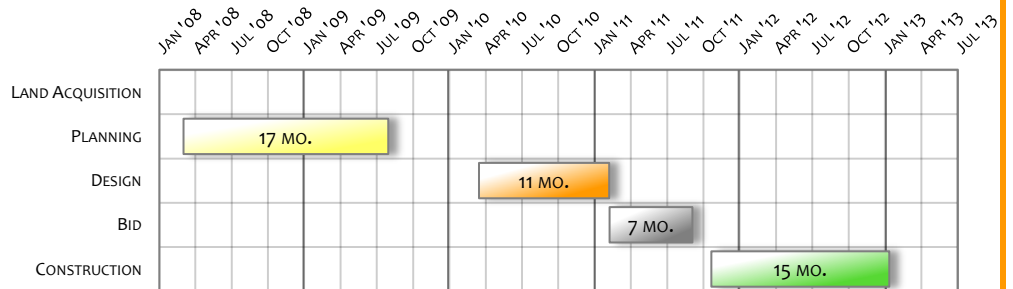

1.06.09.01  
 Grant St.-Columbine St.  
 Denver, CO  
 80203/80206/80218  
 Districts 9 & 10

## Project Overview

### Project Scope

The Colfax Avenue (Grant St to Columbine St) Improvements project extended approximately 21 blocks, from the state capitol building to Denver's East High School. The project helped to create an enhanced transit corridor by installing over 150 new pedestrian lights, increasing sidewalk coverage and making the area both safer and more welcoming. Also included were improvements to existing sidewalks and curb ramps, new pedestrian amenities including benches and bike racks, irrigation upgrades, and the planting of more than a dozen new trees. The new lights and pedestrian amenities will be maintained by the Colfax Business Improvement District.

BETTER DENVER BOND PROGRAM  
 PROJECT COST:  
**\$2,320,146**

### Project Team

Project Manager: Marco Cabanillas  
 Designer(s): Harris Kocher Smith  
 Constructor(s): KECI Colorado Inc.
