

Public Infrastructure TOD - Southmoor Station

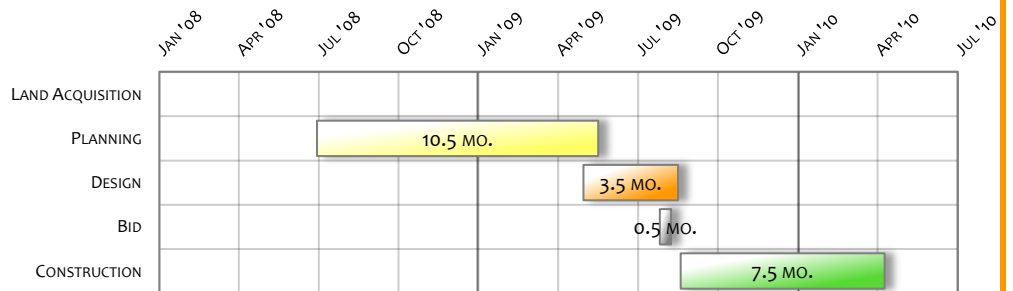

1.06.14.01
3701 S. Monaco Pkwy.
Denver, CO 80237
District 4

Project Overview

Project Scope

The Public Infrastructure TOD - Southmoor Station project commenced construction in Q3 2009 with the aim of improving pedestrian connectivity, walkability and safety from transit stops along East Hampden Avenue to RTD's Southmoor Station. The work encompassed improvements to a half-mile stretch of South Monaco Parkway. Originally, several locations along this street were not compliant with the latest Americans with Disabilities Act (ADA) standards, whether due to missing sidewalks, hard to traverse dirt paths, crossings through parking lots, steep driveways, or missing curb ramps. The project addressed these issues to enhance pedestrian safety between transit stops.

BETTER DENVER BOND PROGRAM
PROJECT COST:
\$496,146

Project Team

Project Manager: Michael Harmer
Designer(s): PBS&J
Constructor(s): Parsons Commercial Technology Group Inc.
