

# Peoria St-Smith Road Grade Separation

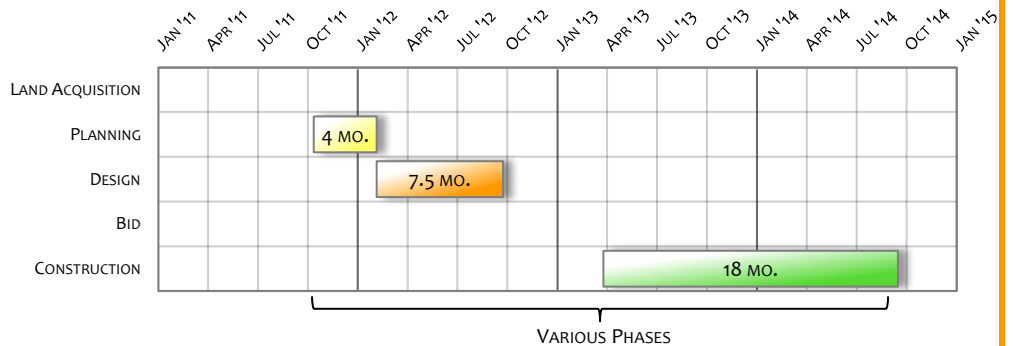

1.06.26.01-02  
 E. 33rd Ave. -  
 E. 39th Ave.  
 Denver, CO 80010/80239  
 District 8

## Project Overview

### Project Scope

The City and County of Denver, City of Aurora and Regional Transportation District (RTD) sponsored this project to construct an overpass on Peoria Street between East 33rd and East 39th Avenues. The new overpass spans existing Union Pacific Railroad tracks, RTD's new University of Colorado A Line, East 37th Avenue, and Smith Road, improving safety and alleviating traffic congestion. Because the project also benefitted from federal funds, all work was performed in accordance with the National Environmental Policy Act (NEPA), with planning, design and NEPA efforts beginning in the fall of 2011. Subsequent phases included right-of-way acquisition, utilities relocation and ultimately construction, which was completed in September of 2014.

BETTER DENVER BOND PROGRAM  
 PROJECT COST:  
**\$1,444,922**

### Project Team

Project Manager: Tykus Holloway, Bret Banwart  
 Designer(s): CH2M Hill Inc.  
 Constructor(s): SEMA Construction Inc.
