

Ross-Broadway Branch Library

Renovations

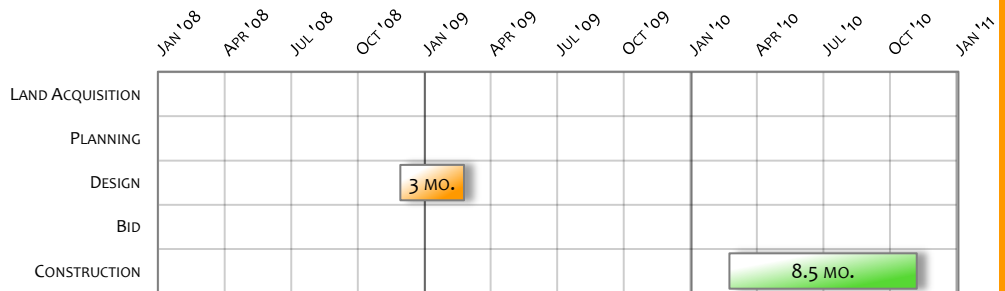

Project Overview

1.07.01.05
 33 E. Bayaud Ave.
 Denver, CO 80209
 District 7

Project Scope

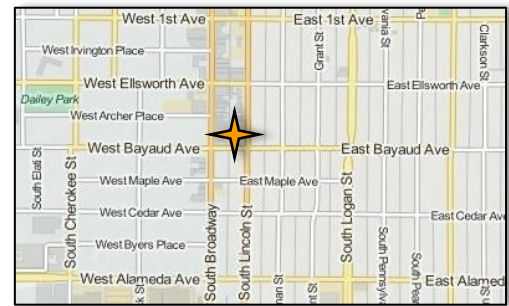

Renovation work at the Ross-Broadway Branch of the Denver Public Library comprised upgrades to incoming electrical service, window restoration, upgrades to mechanical systems, parking lot rehabilitation, landscaping improvements, procurement and installation of self-check stations, as well as installation of a radio frequency identification (RFID) system. Together, the self-check and RFID technologies allow for automated self-check of library media and provide numerous benefits including improved circulation/collection management, reduced theft of library materials, increased efficiency of library staff, and an enhanced customer experience.

BETTER DENVER BOND PROGRAM
 PROJECT COST:
\$249,934
