

# Pauline Robinson Branch Library Renovations Project Overview

1.07.01.16  
5575 E. 33rd Ave.  
Denver, CO 80207  
District 8

## Project Scope

Renovation work at the Pauline Robinson Branch of the Denver Public Library comprised improvements to the building's main entrances and roofing system, procurement and installation of self-check stations, as well as installation of a radio frequency identification (RFID) system. Together, the self-check and RFID technologies allow for automated self-check of library media and provide numerous benefits including improved circulation/collection management, reduced theft of library materials, increased efficiency of library staff, and an enhanced customer experience.

BETTER DENVER BOND PROGRAM  
PROJECT COST:  
**\$85,548**

## Project Team

Project Manager: Ken Matthews  
Designer(s): OZ Architecture  
Constructor(s): Interlock Construction Corp., White Construction Group
