The Financial Empowerment Centers program is part of a national effort to improve the financial stability of households by integrating high-quality, one-on-one financial education and counseling to achieve multiple outcomes for clients. The FEC program is led locally by the Office of Finance, Empowerment & Protection, a City office designed to improve residents' economic mobility by identifying and developing solutions through programs, policies and practices to help stabilize families and individuals.

The American Community Survey (ACS) is a mandatory, ongoing statistical survey that samples a small percentage of the population every year. Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Disclaimer: The City and County of Denver shall not be liable for damages of any kind arising out of the use of this document. The “FEC” logo is neither owned nor controlled by the City and the use of the logo is not authorized by the City.
