As required by DRMC § 12-96, a meeting of the above-referenced Registered Neighborhood Organization was held on 7/17/2020, with 5 members in attendance.

With a total of 5 members voting,

5 voted to support (or to not oppose) the application;
0 voted to oppose the application; and
0 voted to abstain on the issue.

It is therefore resolved, with a total of 5 members voting in aggregate:

The position of the above-referenced Registered Neighborhood Organization is that Denver City Council approve Application # 2019l-00191. See following pages for full statement

Comments: The Chaffee Park Neighborhood Association supports the rezoning of our entire neighborhood to allow Accessory Dwelling Units. Not only do we support this change, but we asked for it. The five voting members referenced on this application are the 5 members of our board of directors. Along with that vote, we also performed neighborhood wide outreach to prove that an overwhelming majority of the neighborhood approves of this application.

Our full statement of support, submitted with the application, is as follows:

The Chaffee Park Neighborhood Association (CPNA) formally and emphatically endorses Council District One’s application to rezone the Chaffee Park Neighborhood to legalize Accessory Dwelling Units.
The Chaffee Park Neighborhood Association (CPNA) formally and emphatically endorses Council District One’s application to rezone the Chaffee Park Neighborhood to legalize Accessory Dwelling Units. Not only does this project have our support, but its existence is the result of a request from our organization to Councilwoman Sandoval in mid-2019. Since then, we have worked very closely with her office in a partnership of research and outreach, resulting in this application.

We support the change from E-SU-B, E-SU-D, and E-SU-DX to E-SU-B1, E-SU-D1, and E-SU-DX1 on all parcels within the boundaries of the Chaffee Park Neighborhood (Federal Boulevard, Osage Street, Interstate 70, 52nd Street and the Aria Complex) for many reasons, but first and foremost because the majority of our constituents want it (as proven by an overwhelmingly positive response to our neighborhood-wide outreach). The process began when several Chaffee Park residents approached the CPNA with inquiries into ADUs, only to be frightened away by the onerous application process and fees. After enjoying an informative presentation from CPD, we decided that the best way forward for our neighbors was to approach Councilwoman Sandoval with a request for a legislative rezone. Handing the application responsibility over to CD1’s office would shift the burden into their more expert hands.

Instead of electing to push for a group application that would spot zone a handful of parcels, we decided to include the entirety of the neighborhood due to an awareness of the city’s desire to maintain a “clean” zoning code, as well as an understanding of the value that the change would bring to our residents, our neighborhood and our city as whole.

The most often cited reason for wanting to build an ADU in Chaffee Park is to provide housing for a family member. Having a place to live for an aging parent, or an adult child that cannot yet afford to live on their own would increase our neighborhood’s economic and social security. In these uncertain economic times, the ability to keep families close will prove invaluable to the stability of the neighborhood and society overall.

Other residents wish to build ADUs for the potential to earn extra income from their property as a way to combat the encroaching forces of displacement. Many RNOs would criticize such a zoning change by claiming it would alter “neighborhood character,” to which we would respond by suggesting that the biggest change to the character of a neighborhood would be the forced exodus of its residents and the removal of existing housing stock to make room for new buildings. Adding ADUs will be the gentlest way for our neighborhood to adapt to the pressures of gentrification, by allowing us to float with the rising tide, rather than letting it drown us. While we understand that the zone change may impact the tax assessment of some properties, we believe that it will be negligible compared to trend in property value increase that we have seen in the last few years. Legalizing ADUs will allow us to adapt along with inevitable change.

The CPNA is also aware of the Denveright Comprehensive Plan’s positive attitude toward Accessory Dwelling Units. We feel that our neighborhood is very well suited (with our close proximity to the CBD, large lots and an overabundance of street parking) to take the lead on carving a path for the rest of the city to follow. Legalizing gentle density in a growing city is a crucial step toward combating the connected problems of housing affordability, transportation issues and the climate crisis. Legalizing the production of alternative housing will provide affordable options for our city’s workforce. The closer these houses exist to the job centers, the fewer vehicle miles traveled on our highways. When we
reduce vehicle miles traveled, there is less pollution from transportation. Our neighborhood understands this and we are more than willing to do something about it. It is our hope that this change will serve as a model for the rest of the city, and our willingness to act will inspire others to join us.
Hello,
We received a notice of zoning changes to allow easier permitting for ADU. From what I understand is that the $1000.00 fee would be forgiven for building ADU’s. I do not agree with this. If the city cannot use the $$ this neighborhood sure could use a nice park!
Also I don’t think the infrastructure could handle this. We are told that we don’t have enough police and firefighters to respond quickly enough. Also do we have good enough water and sewer system to handle twice as many households? Where would they park at? In the alley?
The city says this will help with affordable housing but all of the neighbors are saying they will use them as short term rentals, which is NOT good for the neighborhood. Would there be restrictions on using theses as short term rentals? My thought is if neighbors use these for Short term rentals then they should still pay the 1000.00. Also it has been said at the neighborhood association meeting that I went to that even though it was said you need to live on the property it’s only a problem if you get caught, same with short term rentals— that it’s ok not to register them with the city. I am concerned with this type of language coming from the neighborhood association especially when it is the leader saying this.

I would like a limit to how many can be built and to make sure that they are registered if they are used for short term rentals as well as checking to make sure the owner is living there. I just don’t know how Denver would have the checks and balances to do this. Some in the neighborhood are already operating illegal short term Rentals. It’s on the unofficial Chaffee Park Facebook page.

Thank-you for reading my reply.

Dear Ms. Weigle,

We live at 5120 Bryant Street and oppose this rezoning. It will cause the area to become too dense and crowded. Already there have been box style townhouses and condos being built which are not consistent with the demographics and appearance of the neighborhood. Yards will be filled in and cluttered with buildings not consistent with neighborhood demographics. It will be unsightly.

Celestine and Darlene Rohr
5120 Bryant Street

<td>I strongly support the rezoning to allow for ADU units. I believe this change will help address the need for affordable housing in Denver while still maintaining the character of the neighborhood. In addition, as a real estate appraiser, I believe it will positively impact property values.</td>

A.anda Sandoval does not speak the truth. Yes I am glad her mother gets to live with her. What about the neighborhood. I. 2019 year she held her first meeting at beech court elementary school. Then she planned another meeting one week later on veterans day for a vote. No neighbors that I know got this notice anyone week notice on veterans day? Sounds like she is narcissistic. Mother and all. I spoke to resources officers officer Gibbs and and Anderson in district one. Both agreed traffic would become an issue and crime increase unknown since no comparison. But more people, more strangers logically crime increases. I talked to Amy about this and because of her dirty self serbing politics she would never get my vote. Her response:"As long as you vote." I talked to her about other neighborhoods like new housing in hyland west and houses in sunnyside which would happen in our neighborhood with rezoning. Driving they Sunnyside: raritan to umatilla st u can see the changes. Our property taxes increase. No neighbors I spoke to want this increase. Please call me if u have any questions..paul Lukosi 5180 tejon st. denver. 7202783205

Strong opposition

Your comment: Last message, I forgot to tell you that amy Sandoval told me that there was no new housing in our area. Please give the streets I mentioned and see how truthful Amy was. Politics is good if honest and forthright.. amy has. Ot shown this in the rezoning in Chaffee park, a tiny neighborhood where ADU's do not fit the neighborhood. There is no affordable housing. I have 2 daughters who have lived in rooms, basements,... if 1400 dollars per month is affordable housing then we are living a fantasy. Also voices on the web go in and out for 10 sec at a time and volume is low. I can not find an option to speak... thx, Paul

<td>I strongly support the rezoning proposal. My only concern is that developers will be incentivized to buy up lots as they become available, build an ADU / maximize the buildable square footage, and subsequently price out the middle class. Is it possible to avoid this?</td>

Your comment: Chaffee Park was built decades ago to house Denver's growing population of small families. This zoning change would just prove that the City of Denver is cognizant of that, as well as their own housing crisis. In addition to that, I've seen comments on here that everyone in the neighborhood will take advantage of this new option. I just built a 29K double garage in my backyard and would have to scratch it and start over to fit within the zoning codes, and I'll not be doing that. So not everyone will be taking advantage of the change. Cheers to make good decisions.

**Your comment:** The area being considered is currently single family zoning and the proposal will effectively change it to multifamily. This could drastically change the density of the proposed areas. Many of these lots are only 50 to 60 feet wide. The possible increase of vehicles being parked on the street could double parking greatly impacting the neighbor. Currently each lot can only accommodate three vehicles on the street at best. Greater density and both sides of the street lined with cars is not something I want to live with.

Your comment:

As a Denver native, proud North Denver resident and Chaffee park neighborhood neighbor, I wholeheartedly support the rezoning of our entire neighborhood to allow for ADUs. I believe ADUs will help us stay in our homes by giving homeowners opportunities to maximize their investment in what for many of us is our primary asset. This will help our families with generational wealth building that overall will help our economy and Denver residents thrive. I fully support this rezoning. I am available for any follow questions from Council or the Planning board should they be necessary. Thank you.
