FROM: Francisca Penafiel, Associate City Planner  
DATE: September 30, 2020  
RE: Official Zoning Map Amendment Application #2020I-00041

Staff Report and Recommendation
Based on the criteria for review in the Denver Zoning Code, Staff recommends approval for Application #2020I-00041.

Request for Rezoning
Address: 2483 S Josephine Street  
RNOs: Southside Unified, University Park Community Council, Inter-Neighborhood cooperation (INC)  
Area of Property: 7,500 square feet or 0.17 acres  
Current Zoning: U-SU-C  
Proposed Zoning: U-SU-C1  
Property Owner(s): Jason & Kimberley Monden  
Owner Representative: None

Summary of Rezoning Request
• The subject property contains a single-unit dwelling built in 2014 and is located a block east from the University of Denver, between E Wesley Avenue and E Harvard Ave, along S Josephine Street.
• The property owner is proposing to rezone the property to build an accessory dwelling unit.
• The proposed U-SU-C1, Urban, Single-Unit, C1 (5,500 square feet minimum zone lot size allowing accessory dwelling units (ADUs)) zone district is intended for use in the Urban Neighborhood Context which is characterized by single-unit and two-unit uses. Single-unit residential uses are typically located along local and arterial streets and structures are usually the Urban House building form. The maximum height of the Urban House building form is 30 to 35 feet for the front 65% of the zone lot, 17 to 19 feet in the rear 35% of the zone lot. The Detached Accessory Dwelling Unit form can be a maximum height of 24 feet. Further details of the requested zone district can be found in the proposed zone district section of the staff report (below) and in Article 5 of the Denver Zoning Code (DZC).
City Location

Neighborhood Location – University Park Neighborhood
The subject property is in the University Park Neighborhood, which is characterized primarily by single-unit and two-unit residential, with some multi-unit and mix-use along University Boulevard and Colorado Boulevard. Generally, there is a pattern of rectangular blocks in a street grid pattern with alley access. The subject property is between Wesley Avenue and Harvard Avenue, and is only 1 block east from University Boulevard where there is a bus stop for bus route 24.

The following table summarizes the existing context proximate to the subject site:

1. Existing Zoning

The U-SU-C zone district is a single-unit district allowing only the Urban House primary building form on a minimum zone lot of 5,500 square feet. The maximum allowed height is 2.5 stories or 30 to 35 feet in the front 65% of the zone lot, 1 story and 17 feet to 19 feet in the rear 35% of the zone lot. It allows two accessory structure forms: Detached Garage and Other Detached Accessory Structure with a maximum height of 15 to 17 feet. The intent of the district is to promote and protect residential neighborhoods within the character of the Urban Neighborhood Context.

Proposed Zoning

The U-SU-C1 is a single unit zone district with a minimum zone lot of 5,500 square feet that allows only an Urban House primary building form. A variety of residential and civic uses are permitted as primary uses in the U-SU-C1 district. Compared to the U-SU-C district, U-SU-C1 introduces the accessory dwelling unit use and Detached Accessory Dwelling Unit (DADU) building form. The Detached Accessory Dwelling Unit building form has a maximum height of 1.5 stories or 24 feet. A bulk plane that raises 10 feet vertically from the side interior or side street zone lot line, then slopes 45 degrees also applies to the DADU building form. This form also allows an exemption from the 37.5% building coverage standard allowing the lesser of 50% or 500 square feet. The subject site has a lot size of 7,500 square feet, allowing a maximum building footprint of 1,000 square feet for the DADU.

The primary building forms allowed in the existing zone district and the proposed zone district are summarized below.

Summary of City Agency Referral Comments

As part of the DZC review process, the rezoning application is referred to potentially affected city agencies and departments for comment. A summary of agency referral responses follows:

**Assessor:** Approved – No Response.

**Asset Management:** Approved – No Response.

**Development Services-Fire:** Approved – No Comments.
Denver Public Schools: Approved – No Response.

Development Services - Project Coordination: Approved – No Response.

Development Services - Transportation: Approve – No Response.

Development Services - Wastewater: Approved – See Comments Below
Development of an accessory dwelling unit will require coordination with the SUDP (Sewer Use & Drainage Permit) group about how the ADU will connect to the sanitary sewer. Consult with Kerwin Nance for specific details about what will be required. His email is Kerwin.Nance@denvergov.org.

Parks and Recreation: Approved – No Response.

Public Health and Environment: Approved – No Comments.

Public Works – City Surveyor: Approved – No Comments.

members of City Council and registered
neighborhood organizations:  
City Council Public Hearing: 11/30/2020

- **Registered Neighborhood Organizations (RNOs)**
  - To date, staff has not received any comment letter from the Registered Neighborhood Organizations.

- **Other Public Comment**
  - To date, staff has received three letters from the public supporting the rezoning mostly given that it backs into a 5-story residential building.

### Criteria for Review / Staff Evaluation

The criteria for review of this rezoning application are found in DZC, Sections 12.4.10.7 and 12.4.10.8, as follows:

**DZC Section 12.4.10.7**
- 1. Consistency with Adopted Plans
- 2. Uniformity of District Regulations and Restrictions
- 3. Public Health, Safety and General Welfare

**DZC Section 12.4.10.8**
- 1. Justifying Circumstances
- 2. Consistency with Neighborhood Context Description, Zone District Purpose and Intent Statements

#### 1. Consistency with Adopted Plans

The following adopted plans apply to this application:

- Denver Comprehensive Plan 2040 (2019)
- Blueprint Denver (2019)
- Housing an Inclusive Denver (2018)
- University Park Neighborhood Plan

**Denver Comprehensive Plan 2040**
The proposed rezoning is consistent with many of the adopted *Denver Comprehensive Plan 2040* strategies, including:

- Equitable, Affordable and Inclusive Goal 2, Strategy A – Create a greater mix of housing options in every neighborhood for all individuals and families (p. 28).

U-SU-C1 allows for an additional dwelling unit that is accessory to the primary single-unit dwelling use and introduces a new housing type to a largely single-family neighborhood. Accessory dwelling units can provide housing for individuals or families with different incomes, ages, and needs compatible with the single-unit homes that currently dominate the University Park neighborhood.
Strong and Authentic Neighborhoods Goal 1, Strategy B – Ensure neighborhoods offer a mix of housing types and services for a diverse population (p. 34).

The proposed rezoning would allow infill development appropriate for the surrounding neighborhood that broadens the range of housing types available.

Environmentally Resilient Goal 8, Strategy A – Promote infill development where infrastructure and services are already in place (p. 54).

The proposed map amendment will allow an additional housing unit on the site of an existing home where infrastructure and services such as water, stormwater, and streets already exist. This allows Denver to grow responsibly and promotes land conservation.

**Blueprint Denver**

*Blueprint Denver* was adopted in 2019 as a supplement to *Comprehensive Plan 2040* and establishes an integrated framework for the city’s land use and transportation decisions. *Blueprint Denver* identifies the subject property as part of a Low Residential place within the Urban Neighborhood Context and provides guidance on the future growth strategy for the city.

**Blueprint Denver Future Neighborhood Context**
In *Blueprint Denver*, future neighborhood contexts are used to help understand differences between land use, built form, and mobility at a high scale, between neighborhoods. The subject site is shown on the context map as Urban neighborhood context, the description of which is used to guide appropriate zone districts (p. 66). The Urban neighborhood context is described as containing “small multi-unit residential and low-intensity mixed-use buildings typically embedded in single-unit and two-unit residential areas” with grid block patterns and alley access (p. 222). U-SU-C1 is a zone district within the Urban neighborhood context and is “intended to promote and protect residential neighborhoods within the character of the Urban Neighborhood Context” and “the building form standards, design standards and uses work together to promote desirable residential areas” (DZC 5.2.2.1). U-SU-C1 is consistent with the Blueprint future neighborhood context of Urban because it will promote the residential character by allowing single-unit residential uses with a low-scale accessory dwelling unit that will be compatible with the existing residential area.

**Blueprint Denver Future Places**

The subject site is designated within a Low Residential future place type on the *Blueprint Denver* Future Places map. This place type is “predominately single and two-unit uses on smaller lots. Accessory dwelling units and duplexes are appropriate and can be thoughtfully integrated where compatible,” and “building heights are generally up to 2.5 stories in height” (p. 230). The U-SU-C1 is a single unit residential district that allows for an additional dwelling unit accessory to an established single-family home, which is consistent with the Low Residential future place type description. It allows the Urban House building form, which has a maximum height of 2.5 stories, also consistent with the future places map.
**Blueprint Denver Street Types**

In *Blueprint Denver*, Future Street Types work in concert with the Future Places to evaluate the appropriate intensity of adjacent development (p. 67). *Blueprint Denver* classifies Josephine Street as a Local or Undesignated Future Street Type, which “can vary in their land uses and are found in all neighborhood contexts. They are most often characterized by residential uses.” (p. 161). The proposed U-SU-C1 district is consistent with this street type because it allows for residential and some civic uses.

**Blueprint Denver Growth Strategy**

*Blueprint Denver*’s growth strategy map is a version of the future places map, showing the aspiration for distributing future growth in Denver (p. 51). The subject property is part of the “All other areas of the city” growth area. These areas anticipate experiencing around 20% of new housing growth and 10% of new employment growth by 2040 (p. 51). This growth area contains “mostly residential areas with embedded local centers and corridors (that) take a smaller amount of growth intended to strengthen the existing character of our neighborhoods” (p. 49). The proposed U-SU-C1 zone district allowing an ADU is appropriate in this growth area as it will minimally contribute to development intensity in the neighborhood while maintaining the area’s single-family residential character.

**Blueprint Denver Strategies**

*Blueprint Denver* provides recommendations related to rezoning to allow for ADUs.

- Housing Policy 4 Strategy E: “A citywide approach to enable ADUs is preferred. Until a holistic approach is in place, individual rezonings to enable ADUs in all residential areas, specifically where proximate to transit, are appropriate. Unless there is a neighborhood plan supporting
ADUs, rezonings should be small in area in order to minimize impacts to the surrounding residential area” (p. 84).

- Housing Policy 5: “Remove barriers to constructing accessory dwelling units and create context-sensitive form standards.” (p. 84).

In this case, the requested rezoning is a single lot in a residential area less than 500 feet from a bus route. This rezoning to an ADU zone district will have minimal impacts on the character of the surrounding neighborhood and is consistent with Blueprint Denver recommendations. In addition, the rezoning of the subject property will remove the prohibition on the construction of an accessory dwelling unit.

**Housing an Inclusive Denver (2018)**
Adopted in 2018, *Housing an Inclusive Denver* was not adopted as a supplement to *Denver Comprehensive Plan 2040* but was still adopted by City Council and can be considered relevant to the review criteria for this map amendment. The Plan includes citywide guidance for using *Blueprint Denver* to reduce regulatory barriers to development of accessory dwelling units; however, some of its recommendations can be applied to individual map amendments that propose allowing an accessory dwelling unit. For this case, the following plan goal is applicable:

**Legislative and Regulatory Priorities, Recommendation 2:** “Expand and strengthen land-use regulations for affordable and mixed-income housing. Through Blueprint Denver and supplemental implementation actions such as zoning modifications, the City should support land-use regulations that incentivize affordable and mixed-use housing, including expanding the development of accessory dwelling units.”

The proposed map amendment to U-SU-C1 is consistent with these *Housing an Inclusive Denver* recommendations because it will expand the availability and allow the development of an accessory dwelling unit at this site.

**University Park Neighborhood Plan (2008)**
The University Park Neighborhood Plan was adopted by Denver City Council in 2008 and applies to the subject site. The format of the University Park Neighborhood Plan includes general framework plan recommendations that apply throughout the planning area as well as subarea recommendations that apply in smaller subareas.

General Framework
The overarching theme of the University Park Neighborhood Plan is to create and nurture a community that accommodates a wide variety of uses and people in an environment that enhances the quality of life for residents and the vitality businesses (p.51). Urban Design & Land Use goals in the plan address the elements of existing community structure, public spaces (including building form, orientation and character) and articulate desired future land use and development patterns. The proposed rezoning to U-SU-C1 is consistent with the following Urban Design & Land Use Goals:

- **Goal 2: Residential Neighborhood Character Stability:** Preserve the single-family nature of University Park’s residential neighborhood and respect the urban design and the architectural character of established and preferred residential forms.
- **Goal 4: Diverse Housing Options in Appropriate Locations**: Diversify the mix of housing types near transit amenities to allow residents to age in place, live without the daily use of a car and accommodate the housing needs of empty-nesters, students, young professionals and families.

The intent of the U-SU-C1 zone district is to promote and protect residential neighborhoods within the character of the Urban neighborhood context. These regulations allow for some multi-unit districts, but not to such an extent as to detract from the overall image and character of the residential neighborhood (DZC 5.2.2.1). Therefore, this rezoning is consistent with the general framework of the University Park Neighborhood Plan.

Subarea Recommendations
The University Park Neighborhood Plan also organizes the neighborhood into subareas and provides recommendations for each of these smaller neighborhood areas. The subject site is in the Single-Family Residential Neighborhood subarea which is described as having predominately single-family homes with occasional duplexes interspersed. Buildings of one to two stories in height characterize the prevailing degree of development (p.63).

2. Uniformity of District Regulations and Restrictions

The proposed rezoning to U-SU-C1 will result in the uniform application of zone district building form, use and design regulations.

3. Public Health, Safety and General Welfare

The proposed official map amendment furthers the public health, safety, and general welfare of the city through implementation of the city’s adopted land use plan which recommends “the expansion of accessory dwelling units throughout all residential areas” (p. 84). The proposed rezoning would also provide the benefit of an additional housing unit that is compatibly integrated into the surrounding neighborhood. The building form standards and allowed uses of the proposed zone district promote compatibility with the building forms and uses allowed in the surrounding area.

4. Justifying Circumstance

The application identifies the adoption of Blueprint Denver as the Justifying Circumstance under DZC Section 12.4.10.8.A.4, “Since the date of the approval of the existing Zone District, there has been a change to such a degree that the proposed rezoning is in the public interest. Such a change may include: Changed or changing conditions in a particular area, or in the city generally; or a city adopted plan; or that the city adopted the Denver Zoning Code and the property retained Former Chapter 59 zoning.”

As discussed above, Blueprint Denver specifically recommends the city diversify housing choice through the expansion of accessory dwelling units throughout all residential areas. The plan was adopted after the date of approval of the existing zone districts. Therefore, this is an appropriate justifying circumstance for the proposed rezoning.

5. Consistency with Neighborhood Context Description, Zone District Purpose and Intent Statements

The requested U-SU-C1 zone district is within the Urban Neighborhood Context. The neighborhood context is “primarily characterized by single-unit and two-unit residential uses” and “single-unit residential structures are typically the Urban House building form” (DZC, Division 5.1). These areas consist of “regular pattern of block shapes” and “a consistent presence of alleys” (DZC, Division 5.1). The University Park neighborhood consists of mostly single and two-unit residential uses in rectangular blocks with alley access. The proposed rezoning to U-SU-C1 is consistent with the neighborhood context description.
The specific intent of the U-SU-C1 zone district is “a single unit district allowing urban houses and detached accessory dwelling units with a minimum zone lot area of 5,500 square feet. Blocks typically have a consistent pattern of 50-foot-wide lots. Setbacks and lot coverage standards accommodate front and side yards similar to U-SU-C but allowing a detached accessory dwelling unit building form in the rear yard” (DZC 5.2.2.2.H.) The subject site is in an area where Urban houses and 50-foot wide lots are common. The site at 2483 S Josephine Street is 7,500 square feet with a width of 50 feet. The adopted plan direction recommends allowing detached accessory dwelling units. Therefore, rezoning this site would be consistent with the specific intent of the zone district.

### REVIEW CRITERIA - AFFIRM THE PROPOSED ADU REZONING COMPLIES WITH THE CRITERIA BELOW BY CHECKING THE BOX NEXT TO EACH CRITERION

<table>
<thead>
<tr>
<th>General Review Criteria: The proposal must comply with all of the general review criteria.</th>
<th>(Check box to the right to affirm)</th>
<th>DZC Sec. 12.4.10.7</th>
</tr>
</thead>
</table>
| **Consistency with Adopted Plans:** The proposed official map amendment is consistent with the City's adopted plans, or the proposed rezoning is necessary to provide land for a community need that was not anticipated at the time of adoption of the City's Plan. | ✓ | Denver Comprehensive Plan 2040  
The proposed map amendment is consistent with the strategies in the adopted Denver Comprehensive Plan 2040, including:  
- **Goal 2, Strategy A. Equitable, Affordable and Inclusive** - "Create a greater mix of housing options in every neighborhood for all individuals and families" (p. 28). The proposed zone district allows for an additional dwelling unit that is accessory to the primary single-unit dwelling use. Accessory dwelling units can provide housing for individuals or families with different incomes, ages, and needs compatible with the single-unit neighborhoods.  
- **Goal 8, Strategy A. Environmentally Resilient** - "Promote infill development where infrastructure and services are already in place" (p. 54). The proposed map amendment will allow an additional housing unit on the site of an existing home where infrastructure and services such as water, stormwater, and streets already exist. This allows Denver to grow responsibly and promotes land conservation. |

**Blueprint Denver**  
The proposed map amendment is consistent with the applicable neighborhood context, places, street type, and strategies in *Blueprint Denver*, including:  
- **Policy 4, Strategy E - Diversify housing choice through the expansion of accessory dwelling units throughout all residential areas.**  

**University Park**  
The proposed map amendment is consistent with *Housing an Inclusive Denver*, including:  
- **Attainable Homeownership, Recommendation 1:** "Promote programs that help households maintain their existing homes. The City and its partners should target existing homeowner rehabilitation programs to residents in vulnerable neighborhoods, promote financial literacy education for prospective and existing homeowners, and promote the development of accessory dwelling units as a wealth-building tool for low and moderate-income homeowners" (p. 14). |

<td></td>
</tr>
</tbody>
</table>

**Public Health, Safety and General Welfare:** The proposed official map amendment furthers the public health, safety, and general welfare of the City.  
The proposed map amendment furthers the public health, safety, and general welfare of the City through implementation of the city's adopted plan, including *Blueprint Denver* which recommends "the expansion of accessory dwelling units throughout all residential areas" (*Blueprint Denver*, p. 84). |
JUSTIFYING CIRCUMSTANCES - One of the following circumstances exists:

Since the date of the approval of the existing Zone District, there has been a change to such a degree that the proposed rezoning is in the public interest. Such change may include:

- a. Changed or changing conditions in a particular area, or in the city generally; or,
- b. A City adopted plan; or
- c. That the City adopted the Denver Zoning Code and the property retained Former Chapter 59 zoning.

The proposed map amendment application identifies the adoption of Blueprint Denver as the Justifying Circumstance. As discussed above, Blueprint Denver specifically recommends the city diversify housing choice through the expansion of accessory dwelling units throughout all residential areas. The plan was adopted after the date of approval of the existing zone districts. Therefore, this is an appropriate justifying circumstance for the proposed rezoning.

The proposed official map amendment is consistent with the description of the applicable neighborhood context, and with the stated purpose and intent of the proposed Zone District.

REQUIRED ATTACHMENTS

Please check boxes below to affirm the following required attachments are submitted with this rezoning application:

☑ Legal Description (required to be separate attachment in Microsoft Word document format.)
☑ Proof of Ownership Document (e.g. Assessor's record, property deed, etc.)

ADDITIONAL ATTACHMENTS (IF APPLICABLE)

Please check boxes identifying additional attachments provided with this application (note that more information may be required. Please confirm with your pre-application/case manager planner prior to submittal):

☐ Written Narrative Explaining Project
☐ Site Plan/ Drawings (if available)
☐ Narrative describing any outreach to City Council office(s), Registered Neighborhood Organizations (RNOs) and surrounding neighbors.
☐ Written Authorization to Represent Property Owner(s) (if applicable)
☐ Individual Authorization to Sign on Behalf of a Corporate Entity (e.g. if the deed of the subject property lists an LLC/trust as owner, this is required.)

Please list any other additional attachments:

Debbie makes a good case for supporting the application. In consideration that there is no neighbor residence in the rear to impact and with support of the immediate neighbor to the North, I support the application in this specific instance.

Subject: Proposed rezoning at 2483 S Josephine St U-SU-C to U-SU-C1 to allow an Accessory Dwelling Unit

Hi,

Here is the application from the property owner, please review. The zone change from U-SU-C to U-SU-C1 makes the ADU an allowable use. Currently there is no zoning in UP that allow ADUs.

Page 2 lists the principal justifications for this request. The recently adopted Denver Comprehensive Plan 2040 encourages the construction of ADUs plus the other city initiatives noted.

As you consider this, keep, in mind:

- our recent rezoning eliminated two-story structures in the back of a lot as this ADU will be
- this property shares the alley with the apartment building recently constructed on University

Also note there was no RNO outreach by the applicant.

Call or reply if you have any questions. Please send comments by next Wednesday the 23rd and then a vote by email on our position. A video meeting can be held if there is sufficient interest for group discussion.

Thanks,
Pat

This is my next door neighbor, and I support the application for a 2nd story ADU along the west side of the 2400 block of South Josephine. We back up to the new 70' high mega apartment building on the 2400 block of South University, which is an eyesore at best. Erecting a 2nd story ADU above the garage mitigates the view of the apartment building which we fought vigorously to oppose. Additionally, it isn't blocking anyone's view to anything; the apartment building behind us is.

I vigorously support this application with the caveat that it not set an overall precedent for the neighborhood. Again, the mitigating circumstance is the building directly across the alley.

Debbie Harrington
2477 S Josephine St

P.S. This neighbor has had his children (ages 7 and 12 at the time) verbally heckled in inappropriate ways by apartment tenants yelling down from the rooftop who can see right into our backyards. Another reason why I support the application: to create a visual barrier to the backyards.
