E. Pay adjustment within the salary range
   (Revised effective September 21, 2010; Rules Revision Memo 48C)

1. An appointing authority may adjust pay for an existing employee, within that employee’s current salary range, if the purpose is to eliminate pay inequity created by external market conditions, so long as the existing employee’s pay is being compared with the pay of a subsequent hire from outside the City in the same department or agency if the following conditions are met:

   a. Employees at or above the level of Manager 1 are eligible for this pay adjustment only if the subsequent hire is also at or above the level of Manager 1.

   b. Other employees are eligible for this pay adjustment if the subsequent hire is:

      i. In the same classification;

      ii. In the same classification series;

      iii. In a classification in the same occupational group within the same career path performing similar types of duties;

      iv. Subordinate to the existing employee in the existing employee’s chain of command.

   c. The effective date of the subsequent hire’s employment occurred no more than one year before the request for the pay adjustment is made to the Personnel Director. Exceptions to this limitation may be granted by the Personnel Director upon good cause shown.
2. A pay adjustment within the salary range requires the approval of the Personnel Director. The effective date of any such pay adjustment shall be the beginning of the work week following approval by the Personnel Director.

3. The appointing authority’s request for approval shall explain how external market conditions have caused the pay inequity between the existing employee’s pay and that of the subsequent hire. This explanation should include information about how pay factors (as defined in this Rule 9) have affected the pay inequity between the two employees.
