Subject: Proposed Change to the Classification and Pay Plan

The proposed change amends the Classification and Pay Plan by changing the title of Licensing Technician to Licensing Technician I, and creates a new class called Licensing Technician II (C-616).

The Excise & Licenses (EXL) Department requested that OHR conduct a classification study of their Licensing Technician classification. OHR was asked to create a second classification based off of duties that some of the current Licensing Technicians were performing. Creating the second level for EXL would create a career path to help with employee engagement and to help retain employees.

Job analysis questionnaires were sent to current Licensing Technicians. This was done to distinguish between the duties of each level and to ensure a second level was needed. After much analysis, it was determined by OHR that indeed there was a need to create a second level. Because of this, OHR is changing the title of the Licensing Technician to Licensing Technician I and creating a Licensing Technician II. The Licensing Technician I performs intermediate level work processing routine licenses whereas the Licensing Technician II performs full performance work processing complex licenses, performs quality control on licenses that the Licensing Technician I’s process, works closely with attorneys, and schedules public hearings.
