POSTING IS REQUIRED

Classification Notice No. 1620

To: Agency Heads and Employees
From: Karen Niparko, Executive Director of the Office of Human Resources
Date: September 13, 2019
Subject: Proposed Change to the Classification and Pay Plan

The proposed change amends the Classification and Pay Plan by creating new job classifications of IT Web UI-UX Designer Associate and IT Web UI-UX Designer Associate Senior for Technology Services Agency.

The proposed new job classifications are a part of the Technology Services (TS) Classification Study that began in 2018. TS has recognized that they have had challenges with maintaining and updating their job specifications to keep up with the evolving information technology field. As new types of IT jobs have been added to the City and County of Denver, they have had to place new incumbents into the most reasonable job specification that is available, which do not always align with the current market. The Classification and Compensation Division of the Office of Human Resources has been working with TS to update and create new job classification series based on the city’s needs and market trends. With the addition of these proposed new classifications, these will be very beneficial during the recruitment process ensuring that candidates are applying to the appropriate job classification. This will also be beneficial in retaining current employees knowing they are in the correct job classification and are being compensated based on market data for the correct job classification.
