

Office of Human Resources
Accounting Supervisor - CV1796

THIS IS A PUBLIC DOCUMENT

General Statement of Duties

Supervises professional and paraprofessional accounting staff engaged in daily accounting functions and activities in support of business operations and administration to ensure compliance with fiscal rules and policies in accordance with Generally Accepted Accounting Principles.

Distinguishing Characteristics

The Accounting Supervisor may oversees a variety of the major duties or responsibilities described within the essential duties section of this job description and performs various elements within those major duties and responsibilities, but the Accounting Supervisor may not oversee all of the essential duties outlined below as this is a citywide classification, which encompasses a wide range of work.

The Accounting Supervisor oversees complex and specialized accounting functions in servicing and supporting an agency or department, or may service and support multiple client groups outside of the organization.

The Accounting Supervisor is distinguished from the Accounting Specialist, which performs specialized accounting work within the Controller's Office to administer financial systems; and, is distinguished from the Senior Accountant, which performs complex and specialized accounting work and assignments and does not supervisor professional accountants or support staff.

The following definitions are meant to assist in distinguishing between the three core concepts of accounting, budgeting, and finance, which are as follows:

- Accounting: Tracks, records, and reconciles financial transactions to ensure consistency and compliance with fiscal rules, and creates reports for historical records, audits, and the evaluation of financial processes and transactions.
- Budgeting: Tracks, monitors, and projects expenditures, allocates funds, oversees assets, and prepares justifications and reports with regard to a specific organizational budget and associated business needs.
- Finance: Researches, analyzes, calculates, and compiles financial data, prepares reports for business decision making, determines best use of financial resources, which includes determining interest rates, investments, and managing cash and debt.
