Office of Human Resources

Airport Commercial Administrator – CA3137

General Statement of Duties

Performs advanced professional level work to administer, develop, and implement a significant commercial airport revenue program at Denver International Airport in a multi-disciplinary setting, that need independent integration of specialized and technical principles and has division- and airport-wide impact and aligning with city and airport business development strategies and priorities.

Distinguishing Characteristics

This class handles overseeing the administration of programs, which need the application of multi-disciplinary principles and backgrounds. This class is characterized by administering programs with all the following: a) routine program complexity, b) involving one or two program areas of emphasis/expertise, c) budgetary management with exposure to financial uncertainties, d) requiring decision making with risk, and e) goals and performance metrics are based upon achievement of long-term division-wide outcomes. Administrators are focused on the functional area not on supervising or managing staff; consequently, an administrator may perform lead work. However, administrative positions exist to serve as a technical expert within the functional area and need a high degree of specialized knowledge.

Major airport revenue programs include retail, food and beverage, commercial property, car rental, parking, and ground transportation businesses, as well as airline affairs.

There are two classes in this series. This class is distinguished from the Airport Commercial Administrator Senior class, which is the highest-level class in this series and who performs expert professional level work to administer, develop, and implement large scale, complex airport revenue programs in a multi-disciplinary setting, that needs independent integration of principles and has an airport- and region-wide impact.

Administrator Definition:
An Administrator serves as a technical expert and resource in a specialized, functional area by resolving complex, technical issues and designing systems, processes, guidelines, rules, and standards that are critical and directly impact the on-going operations and policies in the functional area.

Guidelines, Difficulty and Decision-Making Level

Guidelines are generally in the form of stated objectives only with issues and factors largely undefined requiring the employee to exercise creativity and ingenuity in devising criteria, techniques, strategies, and methodologies for approaching assigned functions or projects.

Duties performed involve concepts, theories, and concrete factors to be evaluated and weighed requiring a high degree of analytical ability, independent judgment, and decision-making.

Work assignment is generally unstructured and employee is responsible for organizing complex, varied, and simultaneous coordination of several functions, programs, or projects in various stages of completion.

Level of Supervision Received & Quality Review

Under administrative supervision, the employee has personal accountability for carrying out an assigned function, program, or project within the scope of established guidelines and objectives and is expected to resolve problems that arise in the normal course of the work. Completed work is generally reviewed for soundness of judgment, conclusion, adequacy, and conformance to policy.
Interpersonal Communication & Purpose

Contacts are of a remedial nature involving the resolution of problems and where some degree of discretion and judgment are required in carrying out a major program and/or function of the organization.

Level of Supervision Exercised

By position, performs lead work.
