Distinguishing Characteristics
This class performs a variety of specific administrative activities/projects of limited scope in a specialized, functional area and provides supportive, interpretive, and advisory information to higher level administrators, managers, and/or other stakeholders. This class is distinguished from the Administrator II that performs a variety of comprehensive and technical administrative activities within a specialized, functional area which requires a thorough foundation in the principles and practices of the functional area(s) in order to ensure efficient and effective administration and provide administrative direction to department(s) leaders in strategic efforts associated with the functional area. The Administrator I class is distinguished from the Administrator III class that performs a variety of comprehensive and technical administrative activities that have city-wide impact within a specialized, functional area(s) which requires a thorough foundation in the principles and practices of the functions area(s), exercises overall responsibility for the functional area(s), and provides authoritative advice to top level managers and elected officials on matters of key importance to city goals, programs, and mission.

Administrators are focused on the functional area not on supervising or managing staff; consequentially, an administrator may perform lead work or supervisory duties. However, administrative positions exist to serve as a technical expert within the functional area and require a high degree of specialized knowledge.

The Administrator I class has division level responsibility and may have some departmental responsibilities of defined scope. Additionally, an Administrator III and an Administrator II have responsibility of the entire functional area and the Administrator I have responsibility for a portion of the functional area.

• Some functional areas are clarified in specific classes and series within the classification plan. In those cases the specific classes are to be used.
