General Statement of Duties

Performs specialized, professional level environmental and/or public health inspections and investigations and acts as a subject matter expert to ensure that regulated activities are consistent with legal and other applicable requirements, best management practices, and the department's strategic vision.

Distinguishing Characteristics

The Environmental Public Health Investigator III class is distinguished from the Environmental Public Health Investigator II class that performs full performance professional level work conducting environmental and/or public health inspections to ensure compliance with environmental/public health regulations and laws. The Environmental Public Health Investigator III class is distinguished from the Environmental Public Health Investigator I that performs entry level environmental and/or public health inspections.

The Environmental Public Health Investigator III is also distinguished from the Environmental Public Health Analyst classes that perform environmental and/or public health related assessment, analysis and scientific research.

Guidelines, Difficulty and Decision-Making Level

Guidelines are generally in the form of stated objectives only, with issues and factors largely undefined, requiring the employee to exercise creativity and ingenuity in devising criteria, techniques, strategy, and methodologies for approaching assigned functions or projects.

Duties performed involve concepts, theories, and concrete factors to be evaluated and weighed requiring a high degree of analytical ability, independent judgment, and decision-making.

Work assignment is generally unstructured and employee is responsible for organizing complex, varied, and simultaneous coordination of several functions, programs, or projects in various stages of completion.

Level of Supervision Received & Quality Review

Under administrative supervision, the employee has personal accountability for carrying out an assigned function, program, or project within the scope of established guidelines and objectives and is expected to resolve problems that arise in the normal course of the work. Completed work is generally reviewed for soundness of judgment, conclusion, adequacy, and conformance to policy.

Interpersonal Communication & Purpose

Contacts of a remedial nature involving the resolution of problems and where some degree of discretion and judgment are required in carrying out a major program and/or function of the organization.

Level of Supervision Exercised

By position, performs lead work over environmental/public health investigators.

Essential Duties

Conducts specialized environmental/public health inspections, investigations, and assigned special projects to ensure compliance with applicable legal and other requirements and conformance with established procedures, policies, and best practices.
Acts as a subject matter expert in one or more specialized environmental/public health areas that have city-wide and/or departmental-wide impact and utilizes expertise to modify and/or improve work processes and procedures to ensure compliance.

Engages in extensive collaboration with regulators and the regulatory community and advises, guides, and collaborates with contractors, facility representatives, and other stakeholders to understand and apply requirements and best practices and to achieve compliance.

Collects evidence or other environmental public health related data or information to verify the accuracy and relevance of the data; determines compliance status and/or substantiates alleged violations; recommends proposed corrective and/or enforcement actions; prepares technical reports and presents findings including alternative course(s) of action; and makes recommendations for approval.

Provides technical direction and guidance for assigned projects and programs; oversees consultants and contractors associated with various projects; and collaborates with internal and external stakeholders and partners to evaluate their needs, provide information or assistance, and resolve problems.

Conducts outreach and education and coordinates and provides training and technical assistance to staff, internal and external stakeholders, and the public on environmental/public health matters in specialized area(s) of expertise.

By position, develops or modifies work plans, methods, and procedures, determines work priorities, and develops work schedules to provide adequate staff coverage.

By position, provides work instruction and assists employees with difficult and/or unusual assignments.

By position, assigns and distributes work, reviews work for accuracy and completeness, and returns assignments with recommendations for proper completion.

By position, resolves problems encountered during daily operations and determines appropriate solutions.

By position, contributes to the development of performance goals, documents performance, provides performance feedback, and provides information to inform the formal performance evaluation.

By position, responds orally to informal grievances and relays information to the supervisor.

By position, documents situations which may be cause for disciplinary action and provides this information to the supervisor.

Actively participate on the Department’s emergency preparedness and response team(s) to support meeting the Department’s public health and environmental responsibilities outlined in the City’s Emergency Operations Plan.

Performs other related duties as assigned or requested.

Any one position may not include all of the duties listed. However, the allocation of positions will be determined by the amount of time spent in performing the essential duties listed above.

<table>
<thead>
<tr>
<th>Competencies</th>
</tr>
</thead>
<tbody>
<tr>
