**General Statement of Duties**

This is supervisory level professional environmental/public health scientific and operational work in a multidisciplinary setting requiring independent integration of the principles of the natural and social sciences with law, business, Information Technology, and engineering to supervise staff who evaluate and implement environmental/public health projects or programs for environmental/public health protection, permitting, compliance, recovery, remediation, reclamation or removal.

**Distinguishing Characteristics**

The Environmental/Public Health Manager class is assigned first level supervisory duties over professional level staff performing full performance investigations, compliance and analytical work and/or projects/program management requiring the application of multidisciplinary scientific principles and multi-year, large scale complex programs and projects. This position is distinguished from the Director position in the department of Environmental Health based on the scope and level of overall management responsibility. It is distinguished from the Environmental/Public Health Program Supervisor position, which generally has supervisory responsibility for Environmental/Public Health Investigator and Analyst I classes.

**Guidelines, Difficulty and Decision-Making Level**

Guidelines are generally in the form of stated objectives only with issues and factors largely undefined, requiring the employee to exercise creativity and ingenuity in devising criteria, techniques, strategy and methodologies for approaching functions and programs. Duties performed involve concepts, theories and concrete factors to be evaluated and weighed, requiring a high degree of analytical ability, independent judgment and decision making. Work assignment is generally unstructured and employee is responsible for organizing complex varies and simultaneous coordination of several functions, programs or projects in various stages.

**Level of Supervision Received & Quality Review**

Under managerial direction, the employee has personal accountability for carrying out the work objectives of an organizational unit or section within the scope of established guidelines and the mission of the agency or department. Employee is expected to resolve problems that arise in the normal course of the work. Work may be discussed with higher level supervisors and reviewed for soundness of judgment and feasibility of decisions.

**Interpersonal Communication & Purpose**

Contacts of a non-prescribed nature involving the negotiation and resolution of non-routine problems encountered and where exceptional degrees of discretion and judgment and specialized knowledge are required in carrying out the programs and policies of an organization.

**Level of Supervision Exercised**

Supervises two or more professional level environmental/public health employees at the Environmental Public Health Analyst II level or above.

**Essential Duties**

Supervises investigators, analysts, program administrators, program managers and other technical and non-technical personnel in environmental/public health protection project management.

Plans, schedules, coordinates, and assigns work and establishes goals and priorities for subordinate employees.
Coordinates City-wide environmental/public health projects that encompass legal, technical, financial and land use planning aspects of environmental/public health management.

Reviews departmental contracts and agreements.

Directs short and long term planning for the work unit, including developing and analyzing programs and projects.

Resolves operational and unforeseen procedural problems and addresses other concerns as directed or necessary.

Initiates and recommends disciplinary action for employees as necessary.

Delegates responsibility and authority to subordinate staff.

Assists in the development of departmental budgets.

Implements and interprets policies and procedures developed by higher level managers or supervisors. Assists in developing, recommending and coordinating the implementation of new procedures for the assigned functions or unit.

Develops and implements staff training and development plans to provide cross training of employees, specific job related training, and other approaches to provide opportunities for staff flexibility and development.

Develops the performance evaluation program for functions within the unit, monitors and documents employee performance, provides ongoing feedback regarding levels of performance, and formally evaluates employees in relation to performance.

Actively participate on the Department’s emergency preparedness and response team(s) to support meeting the Department’s public health and environmental responsibilities outlined in the City’s Emergency Operations Plan.

Performs other related duties as assigned or requested.

Any one position may not include all of the duties listed. However, the allocation of positions will be determined by the amount of time spent in performing the essential duties listed above.
