General Statement of Duties

Supervises the receiving and processing of maintenance work requests and complaints at the Maintenance Control Center for the Aviation Maintenance and Engineering Division.

Distinguishing Characteristics

The Maintenance Control Supervisor has varied and unique responsibility, authority and accountability for resolving a diverse array of maintenance related problems that occur at a large aviation complex. The Maintenance Control Center is the focal point for all maintenance activities including Facilities, Field, Fleet, Hi-Tech and Contract Maintenance.

Guidelines, Difficulty and Decision-Making Level

Guidelines are in the form of stated objectives for the section, unit, function or project.

Work assignment is generally unstructured and employee is responsible for assigning and supervising a variety of functions to achieve the objectives of the section, unit or project. Duties performed involve weighing and evaluating factors requiring judgment, analytical ability and problem solving.

Employee is responsible for simultaneous coordination and supervision of several functions, programs or projects in various stages of completion.

Level of Supervision Received & Quality Review

Under administrative supervision, the employee has personal accountability for carrying out an assigned function, program or project within the scope of established guidelines and objectives and is expected to resolve problems that arise in the normal course of the work. Completed work is generally reviewed for soundness.

Interpersonal Communication & Purpose

Contacts of a non-prescribed nature involving the negotiation and resolution of non-routine problems encountered and where exceptional degrees of discretion and judgment and specialized knowledge are required in carrying out the programs and policies of an organization.

Level of Supervision Exercised

Supervises two or more employees who do not supervise.

Essential Duties
