Distinguishing Characteristics

This classification is located at Denver Health Medical Center and is being maintained for promotional purposes.

This class assists in the management of a distinct clinical program in the recognized technical or procedural medical areas of radiology, oral maxillofacial surgery, anesthesiology, cardiology, emergency medicine, obstetrics/gynecology, neonatology, gastroenterology, surgery, surgical subspecialties or other technical fields of medicine. This class is distinguished from the Advanced Technical Physician, which performs advanced professional medical work in the recognized technical or procedural medical areas of radiology, oral maxillofacial surgery, emergency medicine, anesthesiology, cardiology, gastroenterology, obstetrics/gynecology, neonatology, surgery, surgical subspecialties or other technical fields of medicine. This class is distinguished from the Senior Physician, which performs specialized board certified professional medical work assisting in the management of a district clinical program in the recognized medical areas of psychiatry, pathology, pediatrics, internal medicine, family practice, or other fields of medicine.

Guidelines, Difficulty and Decision-Making Level

Guidelines are generally in the form of stated objectives only with issues and factors largely undefined requiring the employee to exercise creativity and ingenuity in devising criteria, techniques, strategy, and methodologies for approaching assigned functions or projects.

Duties performed involve concepts, theories, and concrete factors to be evaluated and weighed requiring a high degree of analytical ability, independent judgment, and decision-making.

Work assignment is generally unstructured and employee is responsible for organizing complex, varied, and simultaneous coordination of several functions, programs, or projects in various stages of completion.

Level of Supervision Received & Quality Review

Under administrative supervision, the employee has personal accountability for carrying out an assigned function, program, or project within the scope of established guidelines and objectives and is expected to resolve problems that arise in the normal course of the work. Completed work is generally reviewed for soundness of judgment, conclusion, adequacy, and conformance to policy.

Interpersonal Communication & Purpose

Contacts are of a remedial nature involving the resolution of problems and where some degree of discretion and judgment are required in carrying out a major program and/or function of the assigned function.

Level of Supervision Exercised

Exercises administrative supervision over subordinates who have personal accountability for carrying out an assigned function.
