There are three classes in the program series; however, this is not a progressive series. This class is distinguished from the Program Administrator which implements, administers, and develops program activities and functions and may by position supervise program staff. This class is distinguished from the Program Manager which provides leadership, direction, and planning for a program(s), supervises program staff, and is responsible for budgetary and resource decisions. This class is distinguished from the Staff Assistant that performs paraprofessional work assisting professional staff in the execution and application of specific administrative functions to the operations of a department/agency.

Definition of a Program:
A program is a specialized area with specific components that include its own policies, procedures, goals, objectives, budget, and tasks that distinguish it from the main body of a department/agency. A program may complement the core goals and objectives of a department/agency but it is separate from the functional areas that support the core goals and objectives.
