Office of Human Resources

Registered Nurse Advanced – CO0558

**General Statement of Duties**

Performs full performance professional level work providing nursing care in a variety of health care settings.

**Distinguishing Characteristics**

This classification is located at Denver Health Medical Center and is being maintained for promotional purposes.

**Guidelines, Difficulty and Decision-Making Level**

Guidelines are generally but not always clearly applicable, requiring the employee to exercise judgment in selecting the most pertinent guideline, interpret precedents, adapt standard practices to differing situations, and recommend alternative actions in situations without precedent.

Duties assigned are generally complex and may be of substantial intricacy. Work assignment is performed within an established framework under general instructions but requires simultaneous coordination of assigned functions or projects in various stages of completion.

Employee is responsible for determining time, place, and sequence of actions to be taken. Unusual problems or proposed deviations from guidelines, practices, or precedents may be discussed with the supervisor before being initiated.

**Level of Supervision Received & Quality Review**

Under general supervision, the employee receives assignments and is expected to carry them through to completion with substantial independence. Work is reviewed for adherence to instructions, accuracy, completeness, and conformance to standard practice or precedent. Recurring work clearly covered by guidelines may or may not be reviewed.

**Interpersonal Communication & Purpose**

Contacts with the public or employees where explanatory or interpretive information is exchanged, defended, and gathered and discretion and judgment are required within the parameters of the job function.

**Level of Supervision Exercised**

By position performs lead-work.

**Essential Duties**

Establishes nursing care plans and participates as a member of a health care team planning for and providing optimal patient care.

Evaluates outcome of patient care, consults with other professionals as required and adjusts nursing care processes as necessary to ensure optimal patient care.

Provides safe, comfortable and therapeutic environment for patients/families in accordance with practice standards.

Gives direction or assistance in planning for or delivering care to multi-problem patients. Educates patients in specialized knowledge, procedures and techniques.
Makes emergency assessments in critical situations and performs necessary procedures/interventions to stabilize the patient’s medical/mental condition.

Instructs patient/family regarding tests and procedures, agency policy and educates them regarding general health techniques and maintenance and preventive health care.

Provides nursing care support for nurses or other personnel with examinations, procedures and other processes related to direct patient care.

Administers and controls medications.

Maintains or increases skills and knowledge base necessary to meet patient care standards and quality improvement criteria. May provide in-service training to other staff.

Participates in and assists in formulating and screening quality improvement plans.

May assume responsibility as a charge nurse. Assists in the orientation of new staff members, nursing students, medical students and others.

Some positions may provide assessment of the medical condition of inmates in the jails or in the forensic unit of the hospital to ascertain undisclosed medical condition and provide necessary intervention. Assists in processing inmates that report to sick call and determining if medical conditions can be resolved by dispensing medications within established protocols, or if the inmates need to be referred to a physician or transported to the hospital. Assists a dentist in meeting the dental needs of inmates.

May interview patients to obtain comprehensive health history and behavior patterns as required for multi-centered research grants and perform complex chart extraction in order to meet the contractual obligations with the Center for Disease Control and prevention.

Some positions act as advice nurse for Choice Care programs.

Maintains and assists in the development of departmental policies and procedures, objectives, quality improvement program, safety, environmental and infection control standards.

Performs other related duties as assigned or requested.

Any one position may not include all of the duties listed. However, the allocation of positions will be determined by the amount of time spent in performing the essential duties listed above.

### Competencies
