General Statement of Duties

Utilizes the nursing process, provides entry level progressing to independently performing professional nursing practice in a variety of health care settings.

Distinguishing Characteristics

This classification is located at Denver Health Medical Center and is being maintained for promotional purposes.

Guidelines, Difficulty and Decision-Making Level

Guidelines are generally numerous, well established, and directly applicable to the work assignment. Work assignment and desired results are explained by general oral or written instructions.

Duties assigned are generally repetitive and restricted in scope but may be of substantial intricacy. Employee primarily applies standardized practices.

Decisions or recommendations on non-standardized situations are limited to relating organizational policies to specific cases. Problems that are not covered by guidelines or are without precedent are taken up with the supervisor.

Level of Supervision Received & Quality Review

Under normal supervision, within a standardized work situation, the employee performs duties common to the line of work without close supervision or detailed instruction. Work product is subject to continual review.

Interpersonal Communication & Purpose

Contacts with the public or employees where explanatory or interpretive information is exchanged, gathered, or presented and some degree of discretion and judgment are required within the parameters of the job function.

Level of Supervision Exercised

By position, performs lead work.

Essential Duties

Assists in establishing nursing care plans, participates as a member of health care team in planning for, and provide optimal patient care.

Provides a safe, comfortable, and therapeutic environment for patients/families in accordance with practice standards.

Educates patients in the procedures and techniques for the prevention of disease and health maintenance.

Identifies changes in clinical signs and symptoms in life threatening situations and initiates appropriate measures.

Instructs patient/family regarding tests and procedures, agency policy and educates them regarding general health techniques and maintenance and preventive health care.

Evaluates outcome of patient care, consults with other professional as required and adjusts nursing care processes as necessary to ensure optimal patient care.
Provides nursing care support to patients during examinations, procedures and other processes. Assists other members of the nursing team and/or other disciplines. Administers medications.

Attends in service and continuing education programs as required, and deemed necessary to support professional development.
