THIS IS A PUBLIC DOCUMENT

General Statement of Duties

Performs supervision over occupational safety and industrial hygiene staff, develops and implements goals, objectives, and policies for a comprehensive occupational safety program to ensure compliance with occupational safety and health standards, and enforces occupational safety and loss policies and procedures within an agency or department.

Distinguishing Characteristics

This class performs professional and supervisory work over occupational safety and industrial hygiene staff, provides direction, long-range and short-term planning, directs policy and procedure development, and makes budgetary and resource allocation decisions.

The Safety and Industrial Hygiene Supervisor is distinguished from a Safety and Industrial Hygiene Administrator that performs specialized level professional occupational safety work developing and implementing goals, objectives, and policies for a comprehensive occupational safety and industrial hygiene program to increase safety, create a safe work environment, and ensures compliance with federal, state, and city occupational safety and health regulations.

The Safety and Industrial Hygiene Supervisor and a Safety and Industrial Hygiene Administrator are differentiated by level of supervision. A Safety and Industrial Hygiene Supervisor administers an agency or department occupational safety program and supervises professional occupational safety personnel; whereas, a Safety and Industrial Hygiene Administrator administers a safety program for an agency or department that may or may not have formal occupational safety program.

The Safety and Industrial Hygiene Supervisor is distinguished from a Safety and Industrial Hygiene Professional II that performs full performance professional level occupational safety work promoting agency awareness and understanding of occupational safety and health standards in order to ensure the overall safety and health of employees, the community, and the environment, and ensures compliance with federal, state, and city occupational safety and health regulations.

The Safety and Industrial Hygiene Supervisor is distinguished from a Manager that manages operational and functional areas and performs some elements of supervision by recommending and implementing plans, procedures, policies, programs, and projects.
