ATTACHED BELOW YOU WILL FIND A STRIKETHROUGH VERSION OF THE PROPOSED REVISIONS TO RULE 7-34 Audits.

Notice of Public Hearing scheduled for April 5, 2018
7-34 Audits

A. An appointing authority may submit a request for, or the OHR may initiate, an audit of a filled position to determine if it is correctly classified, when there has been:

1. A significant change in the type or level of duties and responsibilities;

2. A re-organization affecting a number of employees, which may involve significant additions of new equipment, or substantial changes in methods or procedures; or

3. A maintenance study resulting in changed classification specifications.

B. Appointing authorities are encouraged to submit audit requests to the OHR as soon as possible after the duties of a position have been permanently changed. Requests must be made using the OHR Request for Classification Consideration form.

C. When an appointing authority requests re-allocation of a position to a supervisory or managerial classification from a classification that is not a supervisory or managerial classification:

1. The appointing authority shall provide a list of the position numbers, classification titles, and names of subordinate staff; and

2. The audit request will not be accepted by the OHR until the incumbent has passed the applicable first-line supervisor test.

D. Audit requests will not be granted in the following situations:

1. For limited positions that are not budgeted or not anticipated to be budgeted past the fiscal year in which the audit was requested;

2. For on-call positions, unless re-allocation responsibility has been delegated to the appointing authority under the Progressive Classification Series Program;

3. When there is a vacant position in the incumbent’s work unit which is in the classification to which the audit request seeks to re-allocate the incumbent’s position;

4. For any positions currently included in a classification maintenance study, however an exception may be granted upon OHR Executive Director approval based on the circumstances surrounding the audit request;

Notice of Public Hearing scheduled for April 5, 2018
5. As an alternative to promotion; or

6. As a substitute for disciplinary procedure.

E. An employee may petition an appointing authority to reconsider a decision not to request an audit of the employee’s position and may send a copy of the petition to the OHR Executive Director. The OHR may choose to initiate an audit or maintenance study if warranted under this Rule 7.

F. Progressive Classification Series Program:

1. A progressive classification series consists of classifications where the levels of the duties are different, but the types of duties and nature of the work are the same. **A progressive classification series typically consists of and is intended for non-exempt entry and development levels. It is used to re-allocate an employee in the progressive series who is fully performing at the higher level and has met the requirements to progress to the next level in the progressive series. Not only must the re-allocation factors and specific criteria for classification re-allocation be met, but the higher-level duties must also be assigned.**

2. Under the progressive classification series program, re-allocation responsibility is delegated by the OHR to an appointing authority. **The OHR works with departments and agencies to develop appropriate re-allocation factors and specific criteria (e.g., minimum time in position requirements) which appointing authorities and/or supervisors use to make classification re-allocation recommendations.**

3. Appointing authorities may re-allocate employees within the progressive classification series once they meet criteria established by the appointing authority and agreed to in advance by the OHR. These criteria shall be reflected in the Progressive Classification Series Re-allocation Form developed by appointing authorities and the OHR for each classification in a progressive classification series. This form will be used to process re-allocations under this program.

4. **Although an employee may meet the re-allocation factors and specific criteria reflected in the Progressive Classification Series Re-Allocation Form, appointing authorities reserve management discretion to delay re-allocation within a progressive classification series until an employee’s performance is deemed to be at least satisfactory and no coaching conversations or progressive discipline are in progress.**

54. The OHR retains the responsibility of reviewing completed Progressive Classification Series Re-allocation Forms prior to processing a re-allocation to ensure compliance with the pre-established criteria.
