Fire Prevention Conditional Operational Permit

Detail Information

Please enter your Business Name and a general description of your operation as it applies to Fire Prevention

Business Name: flow
Description of Operations: flow

Address

745 W Colfax AVE
Step 4: Record Issuance

For “Same Day” Operational Permits your permit is issued.
For all other Operational Permits your application has been successfully submitted. Please print this page and retain a copy for your records. Your application will be reviewed. If additional information is required you will receive an email. You will also be notified of any fees due through email. After payment is received your permit will be issued.

Thank you for using our online services.

Your Record Number is 2019DFD-GE-006516.

The Fire Prevention Division manages the City and County of Denver’s program of Fire Safety Permits.

A Fire Safety Permit is an official document, issued in the name of the Fire Official, that authorizes the performance of a certain activity (use, handling, storage, manufacturing, occupancy or control of specific hazardous operations and conditions). The permit is issued only if the condition meets code requirements. The permit process includes cross-checking with Development Services, Public Health and other agencies to ensure that those agencies’ requirements are also being observed.

There is a charge for permits. In almost every case, there is an on-site inspection at no extra charge.
