Denver, Colorado 80202

February 15, 2018

Dear Resident, Property Owner, or Business,

The University Park Parking Area Management Plan (AMP) Committee has worked throughout the last several months to develop an on-street parking and curb lane management strategy for a portion of University Park. The committee is comprised of Parking & Mobility Services (PMS) staff and representatives from University Park Community Council and City Council District 6. This parking strategy is designed to better reflect current levels of parking activity and demand.

The first draft of this AMP was mailed to all impacted residents, businesses, and property owners in September 2018 to solicit feedback. Since then, we have worked to assess input received, make plan modifications where appropriate, and prepare for plan implementation.

As a result of the committee’s diligent work, Parking & Mobility Services is pleased to share the final University Park Parking AMP that includes on-street parking and curb lane modifications to be implemented in April 2019. Please see the enclosed plan to view the final recommendations. Key highlights and modifications include:

- Add 1-hour parking time limits (effective 8am-10pm, Sundays and holidays excepted) along portions of Josephine, Harvard, Columbine, and Wesley. Eligible households may apply for Residential Parking Permits (RPPs) to exempt their vehicles from the 1-hour time limits on their block.
- The AMP initially proposed to convert most of the 1-hour time limits to 2-hour restrictions between 8am-8pm to provide residents and guests with more parking flexibility. However, feedback indicated that the existing 1-hour 8am-10pm time limits were effective and preferred, so the current time limits will remain.
- Add 1-hour parking time limits along Columbine and Clayton north of Buchtel and along Colorado between Clayton and Columbine. These parking restrictions will be in effect between 8am-6pm (Saturday, Sundays, and holidays excepted) to manage parking demand generated by the new University of Denver Administrative Office Building. Eligible households may apply for Residential Parking Permits (RPPs) to exempt their vehicles from the 1-hour time limits on their block.

Residents with addresses located along blocks with new parking time limits (i.e. blue/green dashed lines) will need to satisfy eligibility requirements before parking permits can be obtained. New applicants must submit RPP applications by Monday, March 18, 2019 to receive permits in time to comply with the updated parking restrictions. To apply for a permit or learn more about eligibility requirements, please visit www.parksmartdenver.com and click on “Parking Permits.” Permits will be required to avoid parking citations on time limited block faces once new parking restrictions have been installed. Please note, RPPs are only valid on the block where the permit holder resides. Eligible households may be granted up to a maximum of one annual RPP per licensed driver and one Guest Permit per household.

Implementation is scheduled to begin in early April, pending weather or other unforeseen circumstances, and will take approximately one week to complete. PMS will coordinate closely with Right of Way Enforcement as this AMP is installed and new permits are received. If you have any questions, please contact PMS at parkingandmobilityservices@denvergov.org.

Thank you,
