IGCC Committee Hearing Agenda

Monday October 7th, 2019 1pm-4pm

City and County of Denver, Room 4i5

- Update on incentives the City will be able to offer.
- Review the City’s recommendations on what elements of IgCC should be mandatory and what can be optional. Please see the Master IgCC Development Table for the City’s recommendations – they are summarized on line 2 in each tab. We recommend all items highlighted in blue be mandatory for our first stretch code, and that a portion of the other items the committee recommended as ‘IN’ be required as well as options.
- Wes – review how compares to LEED levels of ambition
- Finish Passive House discussion (Paul please send your recommendation around to the group.)
- How does the whole thing add up?
