AMENDMENT PROPOSAL

Please provide all of the following items in your amendment proposal.

**Code Sections/Tables/Figures Proposed for Revision:**
2018 DBC-IEBC Section 1201.2

*Note: If the proposal is for a new section, indicate (new).*

**Proposal:**

Revise as follows:

Section 1201.2 Report is amended by adding the exception replaced in its entirety with the following:

**1201.2 Report.** A historic building undergoing repair, alteration, or change of occupancy shall be investigated and evaluated. If it is intended that the building meet the requirements of this chapter, a written report shall be prepared and filed with the code official by a registered design professional when such a report is necessary in the opinion of the code official. Such report shall be in accordance with Sections 132 and 133 of the Denver Building Code where compliance with other chapters of these provisions would be damaging to the contributing historic features or character, or historic form, fabric or function of the building. For buildings assigned to Seismic Design Category D, E or F, a structural evaluation describing at a minimum, the vertical and horizontal elements of the lateral force-resisting system and any strengths or weaknesses therein shall be prepared. Additionally, the report shall describe each feature that is not in compliance with these provisions and shall demonstrate how the intent of these provisions is complied with in providing an equivalent level of safety.
**Exception:** For small discreet projects only, if a design professional is not required to prepare drawings and specifications for the project and no such professional is involved with the project, the code official has the authority to allow the report to be prepared by a licensed contractor who is responsible for the work.

**Note:** Show the proposal using **strikeout, underline** format. At the beginning of each section, one of the following instruction lines are also needed:
- Revise as follows
- Add new text as follows
- Delete and substitute as follows
- Delete without substitution

**Supporting Information:**

The purpose of this proposal is to delete an unnecessary portion of the amendment. Section 1201.2 was amended to replace the reference to Chapter 1 with a reference to the requirements of the Administrative Section of the Denver Building Code. IEBC Chapter 1 refers the user to the Administrative Section of the Denver Building Code and the amendment is not needed.

The original exception remains, as it allows reporting by contractors for small historic renovation projects common to Denver.

**Note:** The following items are required to be included:

**Purpose:** The proponent shall clearly state the purpose of the proposed amendment to physical, environmental and customary characteristics that are specific to the City and County of Denver (e.g., clarify the Code; revise outdated material; substitute new or revised material for physical, environmental and customary characteristics; add new requirements to the Code; delete current requirements, etc.)

**Reasons:** The proponent shall justify changing the current Code provisions, stating why the proposal is necessary to reflect physical, environmental and customary characteristics that are specific to the City and County of Denver. Proposals that add or delete requirements shall be supported by a logical explanation which clearly shows why the current does not reflect physical, environmental and customary characteristics that are specific to the City and County of Denver and explains how such proposals will improve the Code.

**Substantiation:** The proponent shall substantiate the proposed amendment based on technical information and substantiation. Substantiation provided which is reviewed and determined as not germane to the technical issues addressed in the proposed amendment shall be identified as such.

**Bibliography** (as needed): The proponent shall submit a bibliography when substantiating material is associated with the amendment proposal. The proponent shall make the substantiating materials available for review.

**Referenced Standards:**

Click or tap here to enter text.

List any new referenced standards that are proposed to be referenced in the code.

**Impact:**

Click or tap here to enter text.

**Note:** The proponent shall discuss the impact of the proposed amendment and indicate one of the following for each point below regarding the amendment proposal:
- The effect of the amendment proposal on the cost of construction;
  - ☒ Increase
  - ☐ Reduce
  - ☐ No Effect
- The effect of the amendment proposal on the cost of design;
  - ☒ Increase
  - ☐ Reduce
  - ☐ No Effect
- Is the amendment proposal more- or less-restrictive than the I-Codes;
  - ☒ More
  - ☐ Less
  - ☐ Same

**Departmental Impact:**
