AMENDMENT PROPOSAL

Please provide all of the following items in your amendment proposal.

Code Sections/Tables/Figures Proposed for Revision:
DBC-IBC 3001.1

Note: If the proposal is for a new section, indicate (new).

Proposal:

Revise as follows

Section 3001.1 Scope is replaced in its entirety with the following:

3001.1 Scope. Requirements for the This chapter and the Denver Fire Code govern the design, construction, installation, alteration and repair of elevators and conveying systems and their components shall comply with the Denver Fire Code and Section 1109.7 and Chapter 30 of the International Building Code as amended.

Note: Show the proposal using strikeout, underline format. At the beginning of each section, one of the following instruction lines are also needed:

Revise as follows
Add new text as follows
Delete and substitute as follows
Delete without substitution

Supporting Information:

This proposal revises a current amendment to IBC 3001.1 to more closely reflect wording in the 2018 IBC and to delete unnecessary references. The proposed wording is the same as the 2018 IBC with the addition of a reference to the Denver Fire Code, which is necessary...
since the Denver Fire Department regulates elevators and conveying systems and there are requirements in the Denver Fire Code that are not in the IBC. This proposal deletes reference to Section 1109.7 since this is specifically referenced in IBC 3001.4. This proposal also replaces reference to Chapter 30 of the IBC with “This chapter”, to match wording in the IBC.

Note: The following items are required to be included:

Purpose: The proponent shall clearly state the purpose of the proposed amendment to physical, environmental and customary characteristics that are specific to the City and County of Denver (e.g., clarify the Code; revise outdated material; substitute new or revised material for physical, environmental and customary characteristics; add new requirements to the Code; delete current requirements, etc.)

Reasons: The proponent shall justify changing the current Code provisions, stating why the proposal is necessary to reflect physical, environmental and customary characteristics that are specific to the City and County of Denver. Proposals that add or delete requirements shall be supported by a logical explanation which clearly shows why the current does not reflect physical, environmental and customary characteristics that are specific to the City and County of Denver and explains how such proposals will improve the Code.

Substantiation: The proponent shall substantiate the proposed amendment based on technical information and substantiation. Substantiation provided which is reviewed and determined as not germane to the technical issues addressed in the proposed amendment shall be identified as such.

Bibliography (as needed): The proponent shall submit a bibliography when substantiating material is associated with the amendment proposal. The proponent shall make the substantiating materials available for review.

Referenced Standards:

None.

List any new referenced standards that are proposed to be referenced in the code.

Impact:

This proposal simply cleans up wording of an existing amendment so there is no impact.

Note: The proponent shall discuss the impact of the proposed amendment and indicate one of the following for each point below regarding the amendment proposal:

- The effect of the amendment proposal on the cost of construction; ☐ Increase ☐ Reduce ☒ No Effect
- The effect of the amendment proposal on the cost of design; ☐ Increase ☐ Reduce ☒ No Effect
- Is the amendment proposal more- or less-restrictive than the I-Codes; ☒ More ☐ Less ☒ Same

Departmental Impact:

This proposal simply cleans up wording of an existing amendment so there is no impact.

Note: The proponent shall discuss the impact of the proposed amendment and indicate one of the following for each point below regarding the amendment proposal:

- The effect of the amendment proposal on the cost of review; ☐ Increase ☐ Reduce ☒ No Effect
- The effect of the amendment proposal on the cost of enforcement/inspection; ☐ Increase ☐ Reduce ☒ No Effect
