AMENDMENT PROPOSAL
Please provide all of the following items in your amendment proposal.

Code Sections/Tables/Figures Proposed for Revision:
DBC-IBC 3003

Note: If the proposal is for a new section, indicate (new).

Proposal:
Revise as follows

[F] SECTION 3003
EMERGENCY OPERATIONS

[F] Section 3003 Emergency Operations and all subsections are replaced in their entirety with the following:

Section 3003.1 Emergency Operations General. Emergency elevator operations shall comply with Section 607 and 606 of the Denver Fire Code (IFCA).

Note: Show the proposal using strikethrough, underline format. At the beginning of each section, one of the following instruction lines are also needed:

• Revise as follows
• Add new text as follows
• Delete and substitute as follows
• Delete without substitution
Supporting Information:

This proposal is simply a wording cleanup of a current amendment to move the requirement of this amendment out of the section title and into a separate sentence. This is done to coordinate with the format of the IBC. Reference to Section 607 is revised to 606 to coordinate with the 2018 IFC that moves this section – it is assumed the Denver amendments to the IFC will make this change as well.

This amendment is necessary to coordinate the building code with Denver Fire Code amendments since elevator requirements are regulated and enforced by the Denver Fire Department.

Note: The following items are required to be included:

Purpose: The proponent shall clearly state the purpose of the proposed amendment to physical, environmental and customary characteristics that are specific to the City and County of Denver (e.g., clarify the Code; revise outdated material; substitute new or revised material for physical, environmental and customary characteristics; add new requirements to the Code; delete current requirements, etc.)

Reasons: The proponent shall justify changing the current Code provisions, stating why the proposal is necessary to reflect physical, environmental and customary characteristics that are specific to the City and County of Denver. Proposals that add or delete requirements shall be supported by a logical explanation which clearly shows why the current does not reflect physical, environmental and customary characteristics that are specific to the City and County of Denver and explains how such proposals will improve the Code.

Substantiation: The proponent shall substantiate the proposed amendment based on technical information and substantiation. Substantiation provided which is reviewed and determined as not germane to the technical issues addressed in the proposed amendment shall be identified as such.

Bibliography (as needed): The proponent shall submit a bibliography when substantiating material is associated with the amendment proposal. The proponent shall make the substantiated materials available for review.

Referenced Standards:

None.

List any new referenced standards that are proposed to be referenced in the code.

Impact:

This proposal is simply a wording cleanup, so there is no impact relative to Denver’s current amendments. The amendment is more-restrictive than the I-Codes since the Denver Fire Code imposes more requirements on elevators than the IBC.

Note: The proponent shall discuss the impact of the proposed amendment and indicate one of the following for each point below regarding the amendment proposal:

- The effect of the amendment proposal on the cost of construction; □ Increase □ Reduce ☒ No Effect
- The effect of the amendment proposal on the cost of design; □ Increase □ Reduce ☒ No Effect
- Is the amendment proposal more- or less-restrictive than the I-Codes; ☒ More □ Less □ Same

Departmental Impact:

This proposal is simply a wording cleanup, so there is no impact relative to Denver’s current amendments.

Note: The proponent shall discuss the impact of the proposed amendment and indicate one of the following for each point below regarding the amendment proposal:

- The effect of the amendment proposal on the cost of review; □ Increase □ Reduce ☒ No Effect
- The effect of the amendment proposal on the cost of enforcement/inspection; □ Increase □ Reduce ☒ No Effect

Form Revised - 2/19/19
