**[F] SECTION 3004**

**CONVEYING SYSTEMS**

**[F] Section 3004.1 General is replaced with the following:**

3004.1 General: Escalators, moving walks, conveyors, platform lifts, dumbwaiters, stairway chair lifts, personnel hoists, material lifts, automated guideway transit systems (AGTS) and material hoists shall comply with the applicable provisions of the International Building Code Sections 3004.2 through 3004.4 and Section 919 of the Denver Fire Code (IFCA).

**Note:** Show the proposal using **strikeout**, underline format. At the beginning of each section, one of the following instruction lines are also needed:

- Revise as follows
- Add new text as follows
- Delete and substitute as follows
- Delete without substitution
Supporting Information:

This proposal is to delete an unnecessary amendment. The current amendment gives a list of conveying systems that must comply with the remainder of 3004 (3004.2 through 3004.4) and with Section 919 of the Denver Fire Code. Since Denver’s amendment to the scope section of Chapter 30 (Section 3001.1) already requires conveying systems to comply with the Denver Fire Code and Chapter 30, this amendment is redundant and unnecessary.

Note: The following items are required to be included:

Purpose: The proponent shall clearly state the purpose of the proposed amendment to physical, environmental and customary characteristics that are specific to the City and County of Denver (e.g., clarify the Code; revise outdated material; substitute new or revised material for physical, environmental and customary characteristics; add new requirements to the Code; delete current requirements, etc.)

Reasons: The proponent shall justify changing the current Code provisions, stating why the proposal is necessary to reflect physical, environmental and customary characteristics that are specific to the City and County of Denver. Proposals that add or delete requirements shall be supported by a logical explanation which clearly shows why the current does not reflect physical, environmental and customary characteristics that are specific to the City and County of Denver and explains how such proposals will improve the Code.

Substantiation: The proponent shall substantiate the proposed amendment based on technical information and substantiation. Substantiation provided which is reviewed and determined as not germane to the technical issues addressed in the proposed amendment shall be identified as such.

Bibliography (as needed): The proponent shall submit a bibliography when substantiating material is associated with the amendment proposal. The proponent shall make the substantiating materials available for review.

Referenced Standards:
