AMENDMENT PROPOSAL

Please provide all of the following items in your amendment proposal.

Code Sections/Tables/Figures Proposed for Revision:

DBC-A 140.6 Required inspections & DBC-IRC R905.3.9 Inspection of tile roofs

Proposal:

Relocate DBC-R905.3.9 to DBC-A 140.6 and revise as follows:

Section R905.3.9 Inspection of tile roofs is added:

R905.3.9 140.6 Mid-roof inspection Inspection of tile roofs. To be conducted on all tile roofs after all underlayment, battens and flashings are installed and no more than 30 percent of the roofing is installed. Mid-roof inspections shall be made to inspect battens and flashings. No more than 30 percent of the roofing shall be completed when requesting the inspection.

Supporting Information:

Reason:

Procedures for required inspections do not belong scattered within chapters of the code, as these are administrative provisions. The DBC administration chapter outlines the required inspections and is the appropriate place to located this provision. The language of this provision has been modified to match the language of the other required inspections. The proponent is unaware of Denver’s policy for midroof inspections, and recommends the staff to testify to the committee any additional roof coverings listed as subsections to R905 that also require midroof inspections and include them in this proposal after the word “tile”. Examples that may customarily require midroof inspections and should be determined by staff are slate, wood shingles, wood shake, single ply, etc.

Referenced Standards:

List any new referenced standards that are proposed to be referenced in the code.

Impact:

November 15, 2005
There is no impact to construction cost as this is an editorial modification.

**Departmental Impact:**

There is no impact to the department as this is an editorial modification.
