**Supporting Information:**
Denver’s current amendment for IBC 713.13.1 adds a sentence that allows a shaft enclosure to have both recycling and waste chutes. The 2018 IBC Section 713.13.1 now includes this same sentence so there is no longer a need for this amendment. (A thank you goes out to Masoud Sabounchi for submitting this change for the 2018 IBC.)

**Reasons:** The proponent shall justify changing the current Code provisions, stating why the proposal is necessary to reflect physical, environmental and customary characteristics that are specific to the City and County of Denver. Proposals that add or delete requirements shall be supported by a logical explanation which clearly shows why the current does not reflect physical, environmental and customary characteristics that are specific to the City and County of Denver and explains how such proposals will improve the Code.
