AMENDMENT PROPOSAL
Please provide all of the following items in your amendment proposal.

**Code Sections/Tables/Figures Proposed for Revision:**
2018 DBC-ISPSC Appendix T Code Section 305

**Proposal:**
Modify Appendix T as follows:
Appendix T 2015 2018 International Swimming Pool and Spa Code Section 305 is added as modified, the remaining sections of the 2015 2018 International Swimming Pool and Spa Code is added as a guideline only are deleted.

**APPENDIX T**

2015 2018 International Swimming Pool and Spa Code Section 305

305.2 Outdoor swimming pools and spas and indoor swimming pools.
Outdoor pools and spas and indoor swimming pools shall be surrounded by a barrier that complies with Sections 305.2.1 through 305.7.

**Supporting Information:**
Purpose. The purpose of the amendment is to maintain the previous adoption of the swimming pool and spa barrier requirements of section 305 of the International Swimming Pool and Spa Code (ISPSC) and also to re-reference to the 2018 version. Appendix T also continues to fully reproduce section 305 and it maintain two previous changes including Denver’s 60 inch high barrier requirement rather than 48 inches. A minor change to 305.2 clarifies in the heading that it includes indoor pools. The other portions of ISPSC are deleted as they were previously.
The reason the pool barrier requirements are important in the building code is to maintain consistency with the Denver Health Department which will require a 60 inch barrier height. Also, Denver health covers none of the other barrier provisions that are specified in section 305. The deleted portion of ISPSC are well covered by Denver Health and do not need to appear in the building code.

*Substantiation:* None

**Referenced Standards:**

**Impact:**
Cost of construction would not increase because the 60 inch high requirement has been in effect in the previous code cycle.

**Note:** The proponent shall discuss the impact of the proposed amendment and indicate one of the following for each point below regarding the amendment proposal:

- The effect of the amendment proposal on the cost of construction; ☒ No Effect
- The effect of the amendment proposal on the cost of design; ☒ No Effect
- Is the amendment proposal more- or less-restrictive than the I-Codes; ☒ More

**Departmental Impact:**

**Note:** The proponent shall discuss the impact of the proposed amendment and indicate one of the following for each point below regarding the amendment proposal:

- The effect of the amendment proposal on the cost of review; ☒ No Effect
- The effect of the amendment proposal on the cost of enforcement/inspection; ☒ No Effect
