<tbody>
<tr>
<td>IFC 901.5</td>
<td></td>
</tr>
</tbody>
</table>

Note: If the proposal is for a new section, indicate (new).

Proposal: Delete existing section 901.5 in its entirety and replace with the following. Leave existing subsections unchanged.

901.5 Installation acceptance testing. All fire detection and alarm systems, fire extinguishing systems, alternative fire extinguishing systems, fire hydrant systems, emergency alarm systems, gas detection systems, fire standpipe systems, fire pump systems, private fire service mains, conveyance life safety systems, smoke control systems, explosion control and all other fire protection and fire safety systems and appurtenances thereto shall be subject to acceptance tests as contained in the installation standards, manufacturers’ instructions and as approved by the fire code official. The fire code official shall be notified by the contractor 72 hours before any required acceptance testing. All required acceptance testing shall be witnessed by the Department. The installation contractor shall be present to perform all acceptance testing. System pre-testing shall be successfully completed prior to scheduling acceptance testing and the installation contractor shall provide a letter from the engineer of record certifying that the system is fully functional and in compliance with approved plans and specifications. Acceptance tests are subject to the established fee schedule. Reacceptance testing for system modifications shall be performed in accordance with this section and NFPA 72.

901.5.1 Occupancy. It shall be unlawful to occupy any portion of a building or structure until the required fire detection, alarm and suppression systems have been tested and approved.

Note: The following items are required to be included:

**Purpose**: The proponent shall clearly state the purpose of the proposed amendment to physical, environmental and customary characteristics that are specific to the City and County of Denver (e.g., clarify the Code; revise outdated material; substitute new or revised material for physical, environmental and customary characteristics; add new requirements to the Code; delete current requirements, etc.)

**Reasons**: The proponent shall justify changing the current Code provisions, stating why the proposal is necessary to reflect physical, environmental and customary characteristics that are specific to the City and County of Denver. Proposals that add or delete requirements shall be supported by a logical explanation which clearly shows why the current does not reflect physical, environmental and customary characteristics that are specific to the City and County of Denver and explains how such proposals will improve the Code.

**Substantiation**: The proponent shall substantiate the proposed amendment based on technical information and substantiation. Substantiation provided which is reviewed and determined as not germane to the technical issues addressed in the proposed amendment shall be identified as such.

**Bibliography** (as needed): The proponent shall submit a bibliography when substantiating material is associated with the amendment proposal. The proponent shall make the substantiating materials available for review.

Referenced Standards:
