Note: If the proposal is for a new section, indicate

| Proposal: DBC-IFC Section 913 |
| Add new text as follows 913.10 AUTOMATIC TESTING of FIRE PUMPS. Trained personnel must be present for all Fire Pump Testing including regular no-flow testing. Arranging the fire pump controller to automatically start, run, and shut-down the motor/engine shall not be allowed. |

Note: Show the proposal using strikethrough underline format. At the start of each section, give one of the following instructions:

- Revise as follows:
- Add new text as follows:

• Delete and substitute as follows:
• Delete without substitution:
Suunorting Information:

NFPA 20-2019 10.5.27(Electric controllers) and 12.7.2.7 (Diesel controllers) calls for morning the controllers to automatically test and run the fire pumps per the NFPA 25 schedule. This conflicts with NFPA 25-2017 8.3.2.7 which requires qualified personnel to be in attendance when the fire pump is running. Further NFPA 25-2017 8.3.2.7.1 further states that the use of the automatic timer does not eliminate the requirement for qualified personnel to be in attendance.

Note: This section MUST include these items:

- **Purpose:** State the purpose of the proposed amendment to physical, environmental and customary characteristics that are specific to the City and County of Denver (e.g., clarify the code; revise outdated material; substitute new or revised material for physical, environmental and customary characteristics; add new requirements to the code; delete current requirements, etc. to reflect physical, environmental and customary characteristics that are specific to the City and County of Denver)

- **Reasons:** Clearly justify the change to current code provisions, stating why the proposal is necessary to reflect physical, environmental and customary characteristics that are specific to the City and County of Denver. Proposals that add or delete requirements shall be supported by a logical explanation that clearly shows why the current code does not reflect physical, environmental and customary characteristics that are specific to the City and County of Denver and explains how such proposal will improve the code.

- **Substantiation:** Substantiate the proposed amendment based on technical information and substantiation. Substantiation provided which is reviewed and determined as not germane to the technical issues addressed in the proposed amendment shall be identified as such.

- **Bibliography:** Include a bibliography when substantiating material is associated with the amendment proposal. The proponent shall make the substantiating materials available for review.
